17. From the marks assigned to candidates in each subject such deduction will be made as the Civil Service Commissioners may consider necessary in order to secure that no credit is allowed for merely superficial knowledge.

18. If a candidate's handwriting is not easily legible, a deduction will be made on that account from the total marks otherwise accruing to him.

19. A list of the competitors shall be made out in order of their proficiency, as disclosed by the aggregate marks finally awarded to each competitor, and, in that order, so many competitors, up to the determined number of appointments, as are found by the Civil Service Commissioners to be qualified by examination shall be designated to be selected candidates for the Indian Civil Service, provided that the Governor General of India in Council is satisfied that they are qualified in other respects.

Should any selected candidate become disqualified, the Secretary of State for India will determine whether the vacancy thus created shall be filled or not. In the former case, the candidate next in order of merit, and in other respects duly qualified, shall be deemed to be a selected candidate.

20. Selected candidates will be on probation for two years in the United Kingdom.

In pursuance of section 2 of the Rules Publication Act, 1893 (56 and 57 Vict., ch. 66) the Secretary of State for India in Council certifies that on account of urgency the foregoing rules are made as provisional rules to come into operation forthwith.

LAND REVENUE.

APPORTIONMENT ORDER.

No. 271 L.R.—The 9th January 1922.—Under section 114 of the Bengal Tenancy Act, 1885 (Act VIII of 1885), the Governor in Council has determined that in the marginally noted police-stations in the district of Nadia, where the preparation of a record-of-rights was undertaken under notification No. 7311 L.R., dated the 6th September 1918, the landlords' and tenants' share of the cost for the survey and the preparation of a record-of-rights including the

estimated cost of maintenance of boundary marks for a period of 15 years shall be apportioned and recovered as specified below:—

1. The rate of cost to be recovered will be Re. 1 per acre except in the case of fields entered in the record as finally published in the khatians of proprietors and tenure-holders. For such lands referred to in clause 5 below as khas lands, the rate will be 10 annas.

2. Of the rate of Re. 1, raiyats including utbandi raiyats in respect of the land of which they have been recorded with occupancy rights and persons holding non-agricultural tenancies shall pay 6 annas and their landlords of all grades together 10 annas per acre.

3. Utbandi raiyats in respect of the land in which they have been recorded as without occupancy rights shall pay 2 annas per acre and their superior landlords of all grades together 14 annas.

4. Rent-free tenants, whether of the degree of raiyat or landlord, shall pay the whole of the landlords' share for their lands.

5. Subject to clause 6 (a) the 10 annas rate for khas lands will be distributed as follows, viz., the person in possession will pay 8 annas and their landlords of all grades 2 annas.

6. As between the different grades of landlords the landlord's share shall be apportioned thus:—

(a) Permanent tenure-holders, whose rent or rate of rent is fixed in perpetuity, shall pay their own share of cost and that of landlords' share superior to them.

(b) Other permanent tenure-holders and temporary tenure-holders, whose lease has over 15 years to run, shall pay three-fourths of the landlords' share and their landlords shall pay the remaining one-fourth.

(c) Temporary tenure-holders, whose lease has 15 years to run, shall pay fifteen-sixteenths of the share they would pay in accordance with (b) above and so on, proportionately according to the number of years of the lease to run.

(d) Temporary tenure-holders, who do not hold on a lease or for a fixed term, shall pay half of the landlords' share.

Explanation.—The calculation shall be made from the lowest grade of landlords immediately above the raiyat. The period for which the lease of the tenure or under-tenure is to run, is to be reckoned in each case from the close of the agricultural year in which the record is finally published.

7. Under-raiyats shall pay at the rate of 4 annas a tenancy or part of a tenancy included in one village.

8. The following minimum charges shall be adopted:—

(a) The minimum charge for any tenancy or part of a tenancy recorded in one village shall be 4 annas.

(b) (1) The calculation shall be made to the nearest anna.

(2) Fractions of an acre shall count as a whole acre.

KING'S POLICE MEDAL.

NOTIFICATION.

(POLICE.)

Delhi, the 2nd January 1922.

No. F-45.—His Majesty the KING, EMPEROR OF INDIA, has been pleased to confer the King's Police Medal, and in two cases a bar to the medal previously awarded, on the following officers and men of the Indian Police establishments :—

BENGAL.

- | Name of officer and rank. | Statement of services for which in particular the decoration has been conferred. |
|--|---|
| 20. John Alphonse Marie Joachim Goldie. Deputy Commissioner of Police, Calcutta, and officiating Deputy Inspector-General of Police, Intelligence Branch, Criminal Investigation Department, Bengal. | This officer joined the Indian Police in 1908, and was employed on district work until September 1916, when he was specially selected to hold charge of the Special Branch of the Calcutta Police, an appointment involving heavy and dangerous duties. This Department, while under Mr. Goldie's control, was responsible for the cessation of political crimes not only in Calcutta but, in co-operation with the Intelligence Branch, throughout Bengal. Throughout his service in this department, Mr. Goldie has shown great devotion to duty and has performed valuable political and secret work, often at considerable personal risk. On one occasion he succeeded after a struggle in capturing an absconder armed with a loaded revolver. |
| 21. Jagadish Dube, Constable, Hooghly district. | These constables, in February 1921, displayed conspicuous gallantry in the arrest of the leader of a gang of burglars whom they had surprised after midnight in a shop at Bansberia. The gang, numbering about ten in all, turned on the constables, wounding Jagadish Dube with a knife. The latter, with the aid of his fellow-constable Baliram Singh, clung tenaciously to one prisoner, whose arrest was effected, and who proved to be a notorious Punjabi offender with six previous convictions. |
| 22. Baliram Singh, Constable, Hooghly district. | |
| 23. Babu Umesh Chandra Chanda, officiating Deputy Superintendent of Police, Dacca. | This officer joined the Bengal Police as a Sub-Inspector in the year 1894. His work has always been of an exceptionally high standard. In several enquiries of a secret nature he has displayed both tact and courage and has throughout his service proved himself a most trustworthy and zealous officer. |
| 24. Francis John Lowman, Superintendent of Police. | This officer joined the Indian Police in 1903, and was posted to the Bombay Presidency. In 1908, his services were transferred to Eastern Bengal and Assam, where, under circumstances calling for the exercise of the highest qualities, he proved himself a most efficient officer. From April 1912, he held charge of the Special Branch of the Calcutta Police, where for four years he showed a whole-hearted devotion to duty, and exceptional ability. Subsequently, while on district duty, his rare tact and insight elicited special comment. He has performed valuable political and secret services at considerable personal risk. |

In addition to the details required on the reverse, clear information should be given below under the following heads:—

- | | |
|---|--|
| (a) If the ordinary surplus is insufficient to meet the charges of the proposed loan, the particular steps which the Municipality has taken, or has agreed to take, in order to make good the deficiency. | A water rate at $7\frac{1}{2}$ per cent. on the annual value of holdings will fetch an annual income of Rs. 24,000 which will meet both the recurring and loan charges. |
| (b) The reserve of taxation or other possible means of increase in the revenues of the Municipality. | Installation of water-supply scheme will possibly improve the sanitation of Krishnagar, so people will build new houses which will go towards the increase of income. |
| (c) A statement of all outstanding loans specifying, in respect of each loan, the date when taken, the purpose (very briefly), the amount, the annual charges involved, and the amount still payable. | Rupees 1,00,000 for the water works scheme; 2nd January 1921. The first instalment of repayment of loan will fall due on 22nd October 1922, if the water-works be completed by March 1922. |
| (d) Any explanations in regard to receipts and expenditure to show the true financial position of the Municipality when such position is otherwise than the ordinary surplus would indicate. | The receipt of water tax on the whole will show a tendency to rise after completion of water works scheme, as it is expected that many people will come back to their ancestral houses who have left for malaria, etc. |

No. 361 P.H.—The 14th January 1922.—The following draft of a by-law which had been framed by the Commissioners of the Sherpur Municipality, in the district of Bogra, under section 350 of the Bengal Municipal Act, 1884 (III of 1884), and which the Government of Bengal (Ministry of Local Self-Government) propose to confirm under section 351 of the Act, is published for the information of persons affected thereby.

A full explanation is given in paragraph D of my letter submitted herewith as well as in Statement D on the reverse.

Rs. 1,000

In addition to the details required on the reverse, clear information should be given below under the following heads:—

- (a) If the ordinary surplus is insufficient to meet the charges of the proposed loan, the particular steps which the borrowing body has taken, or has agreed to take, in order to make good the deficiency.
- (a) Though the ordinary surplus falls short on account of payment of liabilities due to land acquisition and those of Messrs. Jessop & Co., position is otherwise than the normal surplus indicates. The municipality has had no such liability to meet for some years to come save and except the ordinary expenditure. So there will be an adequate amount entirely sufficient to liquidate the loan.
- (b) The reserve of taxation or other possible means of increase in the revenues of the local body.
- (b) There is still room for enhancement of the water rate by $\frac{1}{2}$ per cent. Further the general revision of assessment which is to take effect from the next official year will secure an additional income, in view of the large number of houses being built and improvement effected to older ones an additional income of Rs. 2,000 and possibly more.
- (c) A statement of all outstanding loans as well as the annual charges involved on their account.
- (c) A loan of Rs. 25,000 was taken on 23rd March 1918 as per Municipal Department letter No. 782M., dated 18th March 1918, for water supply scheme repayable in twenty years by annual payment of Rs 2,163 principal including interest. The unpaid amount of this loan is at present Rs. 22,457-7-3.
- (d) Any explanation in regard to receipts and expenditure to show the financial position of the municipality when such position is otherwise than the ordinary surplus would indicate.
- (d) The deficit in the normal surplus does not show the true financial position of the municipality. Even after payment of the heavy amount of Rs. 30,835 in respect of water works, capital outlay and establishment charges, etc., the balance on 31st March was Rs. 5,662, which clearly states the position of the municipality other than what the deficit in the normal surplus indicates.

*Chief Secretary

No. 1276-C.S.R.

Delhi, the 27th December 1921.

RESOLUTION.

His Majesty's Secretary of State for India has been pleased to decide that additional pensions shall be granted to military officers who have held certain high civil posts and have fulfilled the conditions stated in the following paragraphs.

2. The additional pensions will be of two classes; a higher pension of £200 a year and a lower pension of £100 a year. Their grant will be subject to the condition that the total pension of an officer receiving the higher class additional pension shall not exceed £1,000 a year and that of an officer receiving the lower class shall not exceed £900 a year.

3. (a) The pensions will be earned by approved service of the following kinds in a qualifying post :—

- (i) Three years' substantive service; or
- (ii) Three years' continuous officiating service; or
- (iii) Three years' continuous officiating and substantive service.

(b) All privilege leave, and all leave which, under the terms of the Resolution of the Government of India in the Finance Department, No. 1260-C.S.R., dated the 21st December 1921, counts as privilege leave, will, if taken during such service, count as service.

4. The posts qualifying for the higher pension will be all civil posts which now carry a pay of not less than Rs. 4,000 a month. The posts qualifying for the lower pension will be all civil posts which now carry a pay of not less than Rs. 3,000 a month.

5. The period of three years' service prescribed in paragraph 3 above is an absolute minimum, and no portion of either class of additional pension will be admissible to an officer who has held a qualifying post for a shorter period. A period of three years, spent partly in a post or posts qualifying for the higher, and partly in a post or posts qualifying for the lower class additional pension, will, however, entitle an officer to a lower class pension.

6. An officer serving in a post on a progressive or time-scale pay rising to a maximum of Rs. 3,000 or of Rs. 4,000 will be entitled to count as qualifying for a lower or higher pension, as the case may be, that portion only of his service during which he has drawn the maximum pay of the post.

7. These rules will apply with effect from the 1st April 1919 to all officers who retired from civil employ after the 4th August 1914. They will apply to an officer who retired from civil employ before that date if he was recalled during the great war for further civil employment in a qualifying post in India and completed in all three years' service in such a post.

LEGISLATIVE DEPARTMENT.

NOTIFICATION.

No. 258L., dated Calcutta, the 21st January, 1922.—The following Bill was introduced in the Bengal Legislative Council on the 19th January, 1922, and is hereby published for information, together with the Statement of Objects and Reasons annexed thereto :—

THE CALCUTTA IMPROVEMENT (AMENDMENT) BILL, 1922.

BILL

further to amend the Calcutta Improvement Act, 1911.

Preamble.

WHEREAS it is expedient further to amend the Calcutta Improvement Act, 1911, in the manner hereinafter appearing, in order to award a sum of fifteen *per cent.* on the market value of land acquired for the Calcutta Improvement Trust in consideration of

Ben. Act V
of 1911.

the compulsory nature of the acquisition, in lieu of the costs hitherto awarded in substitution therefor;

It is hereby enacted as follows:—

Short title.

1. This Act may be called the Calcutta Improvement (Amendment) Act, 1922.

Repeal of sections 2, 6, 7, 8, 9(1) and 12 of the Schedule

2. Sections 2, 6, 7 and 8, section 9, sub-section (1), and section 12 of the Schedule to the Calcutta Improvement Act, 1911, are hereby repealed in respect of all awards made after the commencement of this Act by the Collector under the Land Acquisition Act, 1894, as amended by the Calcutta Improvement Act, 1911, in regard to land acquired for the Calcutta Improvement Trust and in respect of all appeals or proceedings in connection with such awards.

I of 1894.
Ben. Act V
of 1911.

STATEMENT OF OBJECTS AND REASONS.

The abolition of the payment of the usual 15 per cent. *solatium* in the case of land compulsorily acquired by the Calcutta Improvement Trust aroused considerable opposition when the Calcutta Improvement Act was passed. Some years later the Calcutta Improvement Trust, in making proposals to Government for the amendment of the Act of 1911, recommended that the 15 per cent. *solatium* should be restored, and a formal resolution to this effect was moved in the old Legislative Council by Rai Bahadur Radha Charan Pal in 1919. In the Government reply to that resolution it was stated that Government proposed to legislate so as to restore this *solatium* in the case of all street schemes, although not in the case of general improvement schemes, which are ordinarily designed to remedy insanitary conditions produced by the improper use of land. It was, however, ultimately decided by Government that, as the majority of the schemes undertaken by the Calcutta Improvement Trust were actually street improvement schemes, it was desirable that the limitation on the grant of the *solatium*, which had been originally approved, should be removed, and that the provisions of the Land Acquisition Act on this point should be restored in their entirety. In the meantime several other defects in the Act had been revealed as the result of some years' experience, and it was decided to undertake a thorough revision of the Statute, but as the Reforms were shortly to come into operation, it was resolved that the amending Bill, which had been drafted, should be submitted to the Minister, Local Self-Government Department, for his examination. Certain points raised in the larger Bill are still under discussion, and as it is not considered equitable that the privilege of the *solatium* should be any longer withheld from those entitled to it, now that the principle has been conceded, it has been decided to introduce a short amending Bill, which deals merely with this subject, with the intention that the larger Bill should be introduced as early as possible.

RESOLUTION ON THE ADMINISTRATION REPORT OF THE COMMISSIONERS FOR THE PORT OF CALCUTTA FOR THE YEAR 1920-21.

GOVERNMENT OF BENGAL.

MARINE DEPARTMENT.

CALCUTTA, THE 17TH JANUARY 1922.

RESOLUTION—No. 192Marine.

READ—

The Administration Report of the Commissioners for the Port of Calcutta for the year 1920-21.

General Features of the Administration.—The year under review completed the 50th year of the life of the Trust, and was marked by an important

change in the administration of the Port by the passing of an amending Act, authorizing the appointment of a whole-time salaried Chairman and a Deputy Chairman in place of a part-time Chairman and a Vice-Chairman. The gross tonnage visiting the port during the year approximated to that of the best pre-war years. The following statistics of traffic show the trade of the port as compared with the previous seven years :—

	1913-14.	1914-15.	1915-16.	1916-17.	1917-18.	1918-19.	1919-20.	1920-21.
	Tons.	Tons.	Tons.	Tons.	Tons.	Tons.	Tons.	Tons.
I. Net Tonnage of the Port ...	4,256,987	3,714,844	3,967,798	2,801,680	2,094,011	2,292,462	2,941,846	4,017,514
II. Jetties Imports ...	1,186,797	917,974	769,431	686,010	638,693	674,882	713,746	684,990

IV. Docks General Exports ...	1,281,889	920,679	1,054,985	1,185,159	995,112	1,097,562	1,146,479	1,128,719
V. Docks Coal ...	2,017,180	2,643,803	1,610,645	1,984,898	1,014,985	1,343,383	2,364,976	2,046,400

Income.—The income for the year was the highest attained in the history of the Trust, being Rs. 2,66,08,002 against Rs. 2,23,55,614 of the preceding year. The chief increases occurred under the heads Jetties, Rentable lands and buildings, Wet docks and River dues.

The war surcharges were withdrawn from 31st March 1920, but in addition to other measures it was found necessary to impose a special scale of storage or rent charges from April 1920 to ensure the rapid removal of goods and thus to avoid congestion in the transit sheds.

Expenditure.—The total disbursements for the year, including a special appropriation of Rs. 25 lakhs to meet the depreciation of Sinking Fund investments amounted to Rs. 2,51,61,205 as against the revised estimate for the year of Rs. 2,41,91,915 and the actual expenditure of the preceding year of Rs. 2,25,51,875. The actual expenditure appreciably exceeded the revised budget estimates under the following heads :—

	Actual	Revised estimate	Increase
	Rs.	Rs.	Rs.
Control ...	17,37,143	16,69,805	67,338
Jetties ...	21,31,121	20,74,163	56,958
Port ...	13,07,245	11,76,882	1,30,363
Port Approaches ...	14,52,222	12,87,349	1,64,873
Wet Docks ...	51,86,818	48,65,518	3,21,330
Interests and Sinking Fund charges ...	62,60,366	58,39,624	4,20,742
Difference on exchange ...	2,26,213	1,00,000	1,26,213

Jetties.—The tonnage handled at the Jetties was 684,990 tons in 1920-21, as compared with 713,746 tons in 1919-20. The decrease of 28,756 tons was attributable almost entirely to the high proportion of iron and steel and machinery in the cargoes dealt with. There was, however, a very marked increase in the earnings of the Jetties, the amount for the year being Rs. 62,16,693 against Rs. 22,44,027 in the preceding year. The increase was due chiefly to the higher rent charges; but each berth in use was utilised on average for 347 days during the year compared with 265 days during 1919-20. The unprecedented number of heavy lifts brought out by import steamers greatly reduced the rate of discharge.

Docks.—One thousand one hundred and thirty-three vessels were berthed at the docks during the year under review as against 966 in the previous year. The tonnage of the Docks traffic was 413,857 tons imports and 4,180,119 tons exports, as against 653,066 and 3,411,455. There was a fall in the importations of rice and paddy and Java Sugar and a remarkable increase in the exports of coal.

Inland Vessels Wharves, Budget-Budget.—There was a small decrease in the income from the Inland Vessels Wharves as compared with the previous year mainly due to a diminished traffic in rice and paddy, grain, seeds and betelnuts and in building materials.

One hundred and ninety-five vessels were berthed at Budge-Budge Petroleum Wharf during the year as compared with 150 in the preceding year.

Tea Warehouse.—The trade in tea decreased by about 25 per cent. in comparison with that of last year and the receipts were less by nearly Rs. 1 lakh chiefly under the head of storage charges.

Navigable Channels.—An important feature of the year was the extension of the boundaries of the port proper in a northerly direction from the present limits at Cossipore to Konnagore, while the limits of the navigable river and its approaches were extended north as far as Kalna in the district of Burdwan. It is anticipated that these developments will ensure in the future a more complete and effective control of the river channel. The river channels between the Sandheads and the Port were maintained in a satisfactory condition.

Night Navigation.—Owing to the heavy programme of work the annual overhaul of the gas and channel buoys was not completed by the end of the year, but satisfactory progress was made.

Capital Works.—The chief capital works in progress during the year were :—

1. King George's Dock. The commencement of this work was made and a commemoration stone was laid by His Royal Highness the Duke of Connaught on the 2nd February 1921.

2. Garden Reach riverside berths.

3. Reconstruction of No. 3 Calcutta Jetty.

4. The Rangoon Passenger Shed or Dharmasala, which was completed towards the end of the year. The greater part of the cost of this building was defrayed by Rai Mukhram Kanuria Bahadur.

5. Several important additions were made to the Commissioners' fleet of vessels. Good progress was made with a large new suction dredger named the *Gungu*, and a powerful new tug the *Sir Fredrick Dumayne*, to replace the *Retriever*, was under construction.

Capital Account.—The total liabilities of the Trust on capital account at the close of the year including the outstanding portion of the Government loan and the debenture loans still due for repayment, less the value of the assets of the Sinking Fund, amounted to Rs. 10.42 crores, while the total assets aggregated Rs. 15.38 crores including a sum of Rs. 3.28 crores spent on works in progress.

General.—The amending Act of 1920 providing for a whole-time salaried Chairman which became law in October 1920, was not brought into effect till after the close of the year 1920-21. The Hon'ble Sir Charles Stevenson-Moore, K.C.I.E., C.V.O., I.C.S., vacated the appointment of Chairman on the 6th May 1920 and was succeeded by the Hon'ble Mr. F. J. Monahan, I.C.S., till the 16th December 1920 and then by Mr. D. H. Lees, I.C.S. Mr. S. C. Stuart-Williams continued throughout the year to hold the post of Vice-Chairman.

The Governor in Council desires to thank these gentlemen for their successful administration of the Trust.

By order of the Governor in Council,

H. E. SPRY,

Secretary to the Government of Bengal (offg.).

DEPARTMENT OF AGRICULTURE, BENGAL.**First Forecast of the Wheat Crop of Bengal, 1921-22.**

(NOTE.—On an average of the five years ending 1919-20, the area under wheat in Bengal has represented some 0·4 per cent. of the total area under wheat in India. The ratio of the irrigated wheat acreage to total wheat acreage in (a) British India, and (b) in the territory now reported on, has in the five years ending 1919-20, averaged (a) 42·3 and (b) 16·0 per cent., respectively.)

Explanatory.—Three forecasts of the wheat crop are published. This forecast deals only with the area sown and the general condition of the crop in its early stages.

Acreage.—According to the estimates of the District Officers, the total area sown amounts to 124,800 acres against 114,300 and 116,900 acres reported, respectively, in the corresponding and final forecasts of last year.

Character of the season.—The rainfall in September and October was generally defective throughout the Province, but the moisture left in the soil was sufficient for the preparatory tillage and for the sowings of the crop which commenced generally in the normal time. Since then, complete drought has prevailed and the present condition is reported to be only fair.

C. P. WALSH,

Secretary to the Government of Bengal.

INDIAN SERVICE OF ENGINEERS AND ENGINEERING ESTABLISHMENT OF INDIAN STATE RAILWAYS.

REGULATIONS AS TO APPOINTMENT OF ASSISTANT EXECUTIVE ENGINEERS IN 1922.

[The Secretary of State is unable to give any undertaking that the Regulations will remain unaltered in the future.]

1. Until further notice the Secretary of State for India in Council will, during each year, make a number of appointments of Assistant Executive Engineers in the Public Works and State Railway Departments of the Government of India.

In making these appointments he will act with the advice of a Selection Committee, including at least one eminent representative of the Engineering profession.

In 1922 it is intended that 11 appointments shall be made.

The Selection Committee will probably sit in May.

2. Applications must be made on a printed form, which may be obtained from the Secretary, Public Works Department, India Office, Whitehall, S.W. 1, and should reach the India Office not later than 1st April.

3. Every European candidate must have been born on or after the 2nd August 1896 and on or before the 1st August 1900.*

An Indian candidate must have attained the age of 21 and not attained the age of 24 years† on the 1st day of July of the year in which he offers himself for appointment, except that in the case of an Indian who has rendered service of the nature defined in Regulation 4, the same maximum age limit as for Europeans will apply.

[N.B.—Indians must obtain a certificate of age and nationality in the form explained in Appendix II. As the production of this certificate is a necessary condition of appointment, intending candidates are advised to procure it without delay. The certificate should be forwarded to the India Office together with the candidate's form of application or at the earliest subsequent opportunity.]

4. Every European candidate in 1922, subject to the exception stated below, must have served in His Majesty's Naval, Military or Air Forces during the war for at least one year, or if his service be less than one year, have been discharged on accounts of wounds or sickness resulting from such service.

* The maximum age limit for European candidates will be reduced to 25 years in 1923 and to 23 years in 1924.

† Subject to the exception stated in paragraph 3, the maximum age limit of 24 years for Indian candidates will be maintained for the next year and will be reduced to 23 years in 1924.

In the case of Europeans who have been prevented on adequate grounds from joining His Majesty's Forces, applications to be exceptionally admitted as candidates may be made to the India Office for consideration.

5. Every European candidate must be a British subject and, except as provided in Regulation 6, if he or his father or his mother was not born within His Majesty's Dominions and allegiance, the father must at the time of the candidate's birth have been a British subject and still be (or have continued to be until his death) a British subject. The decision of the Secretary of State in Council, whether a candidate satisfies these conditions, shall be final. A candidate must also be of good moral character and sound bodily health and, in the opinion of the Secretary of State for India in Council, in all respects suitable to hold an appointment in the Indian Public Works Department or State Railway Department.

*6. Indians who, save as hereinafter provided, are British subjects, and are not qualified under Regulation 5, are eligible for appointment and shall be selected to the extent of 10 per cent. of the total number of Assistant Executive Engineers thus recruited, if otherwise duly qualified.

Provided that a ruler or subject of any State in India in respect of whom the Governor-General in Council has made a declaration under section 96A of the Government of India Act, 1915, as amended by section 3 of the Government of India (Amendment) Act, 1916, may be considered eligible.

7. Indian candidates must produce evidence that they have either (1) obtained one of the University degrees mentioned in Appendix I: or (2) such passed Sections A. and B. of the A.M.I.C.E. examination; or (3) obtained such other diploma or distinction in Engineering as the Secretary of State may decide to accept in any particular case. It is preferred that candidates should have taken a college course and obtained one of the degrees mentioned in Appendix I. They should in addition have had at least one full year's practical experience of Civil Engineering under a qualified civil engineer at the time when they appear before the Selection Committee. Those whose qualifying diploma has been obtained without a college course should have had a full three years of such practical experience.

8. European applicants eligible under Rule 4 who can produce evidence of the above qualifications will be admitted as candidates; others not holding one of the recognised degrees or diplomas must produce evidence—

- (a) of having received a general education high enough to fit them to receive proper professional training and to become members of the Civil Engineering profession;
- (b) of having received some technical education (University or otherwise) in Civil Engineering; and
- (c) of having had some practical training and experience in Civil Engineering as civilians and in military or quasi-military service.

An applicant who has served or is serving at the time of his application in His Majesty's Forces, must produce, if possible, a report by his Commanding Officer on his character, administrative capacity and powers of organisation, and aptitude, natural bent, and Engineering experience.

9. Selected candidates will be required to undergo further training on works in India for a period of at least one year. During this period they will be on probation and their final appointment will be made dependent upon the result of such probation.

10. Candidates must be prepared, if called upon, to attend at the India Office, at their own expense, for a personal interview with the Selection Committee.

11. Candidates will further be required, before final appointment by the Secretary of State in Council, to appear, at their own expense, before the Medical Board at the India Office for examination as to their physical fitness for service in India.

The Regulations governing the physical examination of candidates for the Public Works and State Railway Departments of the Government of India are given in Appendix III.

* It has been decided that the present rule under which 10 per cent. of the appointments made in this country are reserved for Indians shall continue up to and including 1924, when the question of the recruitment of Indians in England will be further considered.

*12. Selected candidates will also be required to satisfy the Secretary of State of their ability to ride.

13. They will on appointment be provided with a free first-class passage to India and they will be expected to proceed thither about the end of September or later in the year in which they are appointed.

Their pay will begin from the date of their landing in India, and, if they so desire, they will be able to obtain an advance of two months' pay, recoverable by monthly instalments of one-third of salary. Of this advance a portion not exceeding one-half may be drawn in England.

14. If less than 24 years of age on 1st August 1922, candidates will enter the service as Assistant Executive Engineers on a salary of Rs. 6,300 a year. If above 24 years, they will be credited with service as though they had been appointed in their 24th year. The years of service so credited will subsequently count for purposes of pay and promotion, but not for leave.

15. Completed years of service with His Majesty's Forces, rendered after attaining the age of 22 years, will count for pension (including invalid pension) on the following scale:—

For officers retiring after 20 but with less than 25 years' service, a maximum of two years to count for pension;

For officers retiring after 25 years' service, a maximum of three years to count for pension.

16. The instruments required by Assistant Executive Engineers are supplied to them in India.

17. Particulars as to pay, pension, &c., are contained in Appendices IV and V.

(a) a certificate from the Civil Service Commissioners that they are sufficiently at home in the saddle for the efficient performance of all the duties of the Indian Public Works and State Railway Departments; or

(b) a certificate from the Civil Service Commissioners of minimum proficiency in riding.

In the latter case they will be subjected, on their arrival in India, to such further tests in riding as may be prescribed by their Government.

Candidates are warned that the certificate of minimum proficiency in riding, without which they will not be allowed to proceed to India, is only granted to those who can qualify in a series of tests, which includes jumping.

APPENDIX III.

REGULATIONS AS TO THE PHYSICAL EXAMINATION OF CANDIDATES FOR APPOINTMENT TO THE PUBLIC WORKS DEPARTMENT OF THE GOVERNMENT OF INDIA.

Note.—These Regulations are published for the convenience of candidates and in order to enable them to ascertain the probability of their coming up to the required physical standard. But it must be clearly understood that the Secretary of State reserves to himself an absolute discretion to reject as unfit any candidate whom he may consider, after hearing the opinion of his medical advisers, to be physically disqualified for the public service; and that his discretion is in no respect limited by these Regulations.

It is not the practice to communicate to candidates who may be reported as physically unfit for service in India the reasons for the Medical Board's opinion.

General Physical Requirements.

1. A candidate must be in good mental and bodily health, and free from any physical defect likely to interfere with efficient performance of duty.
2. In the examination of candidates the Medical Board will apply the following table of correlation of age, height, and chest girth:—

Age.	Height without Shoes.	Chest.	
		Girth when expanded.	Range of expansion.
	Inches.	Inches.	Inches.
21 and upwards	62½ and under 65	35	2
	65 „ 68	35½	2
	68 „ 70	36	2
	70 „ 72	36½	2½
	72 and upwards	37	2½

3. *Measurement of Height.*—The candidate will be placed against the standard with his feet together, and the weight thrown on the heels, and not on the toes or outside of the feet. He will stand erect without rigidity, and with the heels, calves, buttocks, and shoulders touching the standard; the chin will be depressed to bring the vertex of the head level under the horizontal bar, and the height will be noted in parts of an inch to eighths.

4. *Measurement of Chest.*—The candidate will be made to stand erect with his feet together, and to raise his hands above his head. The tape will be carefully adjusted round the chest, with its posterior upper edge touching the inferior angles of the shoulder blades, and its anterior lower edge the upper part of the nipples. The arms will then be lowered to hang loosely by the side, and care will be taken that the shoulders are not thrown upwards or backwards so as to displace the tape. The candidate will then be directed to empty his chest of air as much as is possible. This is best done by continuous whistling with the lips as long as sound can be produced. The tape is carefully gathered in during the process, and when the minimum measurement is reached it is recorded. The candidate will then be directed to inflate his chest to its utmost capacity. This maximum measurement will likewise be noted. The girth with the chest fully expanded and the range of expansion between the minimum and the maximum will then be recorded.

5. The hearing must be good.

6. The speech without impediment.

7. The teeth in good order, *i.e.*, decayed or broken teeth must be properly stopped or crowned, and deficient teeth replaced by artificial teeth where necessary for effective mastication.

8. The chest must be well formed, the lungs and heart sound.

9. Rupture, hydrocele, varicocele, varicose veins in a severe degree, or other condition likely to cause inefficiency will disqualify a candidate, unless such condition is cured by operation.

10. The limbs, feet, and toes must be well formed and developed, with free and perfect motion of all the joints.

11. A candidate must have no congenital malformation or defect likely to interfere with efficiency.

12. A candidate must not be the subject of chronic skin disease.

13. Evidence of previous acute or chronic disease pointing to an impaired constitution will disqualify.

Candidates may, if they wish it, undergo a preliminary examination by the Medical Board, which meets at the India Office every Tuesday, under the following conditions:—

- (a) Applications must be addressed to the Under-Secretary of State, India Office, Whitehall, London, accompanied by a fee of two guineas, and a statement as to the particular appointment which the candidate desire to obtain.
- (b) Candidates must pay their travelling expenses.
- (c) Candidates considered to be unfit by the Medical Board at this preliminary examination are not bound to accept its opinion, but may, *at their own risk*, continue their studies, with the knowledge that they will have to submit themselves for a final medical examination by the Medical Board, prior to the examination, or to their appointment.
- (d) On the other hand, it must be distinctly understood that the preliminary examination by the Medical Board is held solely for the candidate's information and that, if after that examination he is reported to be apparently fit, he has not on that account any claim to be accepted as physically fit when he presents himself for the final medical examination, upon which alone his acceptance or rejection will depend. Candidates may be considered fit for the service at the preliminary examination, but may be found at the final examination to be unfit, either on account of some physical defect which did not exist or passed undetected at the preliminary examination, or for other reasons.

REGULATIONS AS TO THE STANDARD OF VISION.

1. If myopia in one or both eyes exists, a candidate may be passed provided the ametropia does not exceed 3.5 D, and if, with correcting glasses not exceeding 3.5 D, the acuteness of vision in one eye equals $\frac{5}{6}$ and in the other $\frac{5}{6}$, there being normal range of accommodation with the glasses.

2. Myopic astigmatism does not disqualify a candidate, provided the lens, or the combined spherical and cylindrical lenses, required to correct the error of refraction, does not exceed 3.5 D; the acuteness of vision in one eye, when corrected, being equal to $\frac{5}{6}$, and in the other $\frac{5}{6}$, together with normal range of accommodation with the correcting glasses, there being no evidence of progressive disease in the choroid or retina.

3. A candidate having total hypermetropia not exceeding 4 D is not disqualified, provided the sight in one eye (when under the influence of atropine) equals $\frac{5}{6}$, and in the other eye equals $\frac{5}{6}$, with + 4D glasses, or any lower power.

4. Hypermetropic astigmatism does not disqualify, provided the lens or combined lenses required to cover the error of refraction do not exceed 4 D, and that the sight of one eye equals $\frac{5}{6}$, and the other $\frac{5}{6}$, with or without such lens or lenses.

5. A candidate having a defect of vision arising from nebula of the cornea is disqualified if the sight of one eye be less than $\frac{6}{12}$. In such a case the better eye must be emmetropic. Defects of vision arising from pathological or other changes in the deeper structures of either eye, which are not referred to in these rules, may exclude a candidate.

6. Squint or any morbid condition, subject to the risk of aggravation or recurrence, in either eye, may cause the rejection of a candidate. Any imperfection of the colour sense is a disqualification for appointment to the engineering branch of the Railway Department. In other cases the existence of imperfection of colour sense will be noted on the candidate's papers.

APPENDIX V. (*See para. 17 of the Regulations.*)

NOTE —This Appendix is merely intended to show the principal leave rules in the Fundamental Rules and the Pension Rules in the Civil Service Regulations at present applicable to Engineers appointed to the Indian Services from the United Kingdom without going into minute details, and does not profess to deal with every case that may arise. The rules are subject to alteration, and any disputed question must be decided with reference to the authorised text of the Fundamental Rules or Civil Service Regulations for the time being.

LEAVE.

Leave is calculated in terms of "leave on average pay," and the amount of "leave on average pay" for which an officer is eligible is five-twenty-seconds of the period spent on duty.

Subject to certain maxima and minima, an officer may draw, at his option, leave salary equal to the average pay of the last 12 months of completed duty or to half such average pay. All leave on average pay and half the period on half average pay is counted against the leave earned. An officer may take his leave on average pay, on half average pay, or on a combination of the two, provided that his continuous absence from duty does not exceed 28 months, and that the amount of leave taken on average pay does not exceed eight months at any one time. The maximum amount of leave admissible during an officer's career is the equivalent of leave on average pay for three years plus one-eleventh of the period spent on duty, of which not more than one year plus one-eleventh of the period spent on duty may actually consist of leave on average pay. Leave not due and carrying half average pay may be granted on medical certificate, and, within certain limits, for other reasons, but an officer will not again commence to earn leave until the expiration of a fresh period of duty sufficient to earn a credit of leave equal to the leave he has taken before it was due. After 28 months' absence from duty an officer draws quarter average salary, subject to certain maxima and minima.

Leave salary is ordinarily payable in rupees if the officer spends his leave in India or Ceylon, and in sterling if he spends it elsewhere. The rate of exchange for the conversion of leave salary is prescribed from time to time by the Secretary of State.

It should be noted that leave can never be claimed as of right, but is given or refused at the discretion of Government.

PENSIONS.

13. The following is a summary of the pension rules applicable to Engineers appointed to the Indian Services by the Secretary of State from the United Kingdom.

Ordinary Pensions.

14. Subject to the absolute right of the Government of India to decline to permit any officer to retire before reaching the age for superannuation, should it be necessary in the public interest to retain his services, officers will be allowed to retire optionally after 20 or more years' service.

15. Retirement is ordinarily required at the age of 55 years, but for special reasons an officer is sometimes retained after attaining that age.

16. An officer becomes eligible for full retiring pension on completing 30 years' qualifying service:—

17. If before completing this period of service an officer is permitted to retire voluntarily after completion of 20 or more years' qualifying service

(paragraph 14) or is compelled to retire on attaining the age of 55 (paragraph 15), he will be eligible for pension on the following scale:—

Years of Completed Service.					Maximum Limit of Pension.
					Rs.
20	4,000 per annum.
25	5,000 "
26	5,200 "
27	5,400 "
28	5,600 "
29	5,800 "
30	6,000 "

18. Government may retire any officer after he has completed 25 years' service without giving reasons, and without any claim for compensation in addition to pension, and in that event the pension admissible to him will ordinarily be regulated on a scale not exceeding that laid down above. Government also reserves the general power to reduce the pension ordinarily admissible in all cases where an officer's service has been unsatisfactory.

19. An officer who is compelled to retire through ill-health not occasioned by irregular or intemperate habits will be eligible for gratuity or pension as follows:—

(a) After a service of less than 10 years a gratuity not exceeding (except in special cases and under the orders of the Government of India, up to a maximum of 12 months' emoluments) one month's emoluments for each completed year of service. If the emoluments of the officer have been reduced during the last three years of his service, otherwise than as a penalty, average emoluments may, at the discretion of the authority which has power to sanction the gratuity, be substituted for emoluments.

(b) After a service of not less than 10 years, a pension not exceeding the following amounts:—

Years of Completed Service.	Scale of Pension.	Maximum.
		Rs.
10	10 sixtieths of average emoluments	2,000 per annum

21	21 " "	4,200 "
22	22 " "	4,400 "

28	30 " "	5,600 "
29	20 " "	5,800 "
30 and above	30 " "	6,000 "

Additional Pensions.

20. The Government of India have classified certain high appointments into two grades, the lower comprising those posts which involve high but intermediate responsibility, the higher consisting of those which require a marked degree of independent administrative and professional capacity. Officers who have held appointments listed in the lower grade will be entitled to an additional pension at the rate of Rs. 300 per year for each completed year of effective service in any appointment included in that grade provided that no officer may draw an additional pension in excess of Rs. 1,500 in respect of service classed in the lower grade. Officers who have held appointments listed in the upper grade will be entitled to an additional pension at the rate of Rs. 500 for each completed year of effective service rendered in any appointment included in that grade, provided that no officer may draw an additional pension in excess of Rs. 2,500 in respect of service rendered in the lower and upper grades combined or in the upper grade alone.

21. These additional pensions will be awarded only to officers who have given proof of special energy and efficiency, and will be subject to the condition that an officer must not retire voluntarily before the age of 55 with less than 28 years' service.

The upper grade includes the Secretary to the Government of India, Public Works Department, the Inspector-General of Irrigation, Chief Engineers of the Indian Service of Engineers, Agents of State Railways (if in pensionable service) and Chief Engineers, Railways.

The lower grade includes Superintending Engineers, Indian Service of Engineers, Deputy Secretary to the Government of India, Public Works Department, Deputy Agents of State Railways (if in pensionable service) and the Secretary, Railway Board (if in pensionable service).

PROVIDENT FUND.

22. A general Provident Fund, to which contribution is compulsory, has also been established on the following basis:—

- (1) The contribution is compulsory up to 6½ per cent. on salaries, with voluntary contributions of not more than a further 9½ per cent. Subscriptions on leave of any kind are optional.
- (2) Compound interest on such payments is annually credited by Government to each officer subscribing.
- (3) The sum which thus accumulates to the credit of an officer is his absolute property, subject to the rules of the Fund, and is handed over to him, unconditionally, on quitting the Service; or, in the event of his death before retirement, to his legal representatives or such other person or persons as, under and subject to the rules of the Fund for the time being in force, may be entitled thereto.

Provided that the aggregate capital amount of the loans the principal or interest of which is guaranteed under this section shall not exceed the sum of twenty-five million pounds.

No. A.-74.

Delhi, the 12th January 1922.

RESOLUTION.

IN the year 1908 an International Electro-technical Commission was formed with its headquarters in London for the purpose of carrying out the following resolution of the Chamber of Government Delegates at the International Electrical Congress of St. Louis in September 1904 :—

“ That steps should be taken to secure the co-operation of the Technical Societies of the world by the appointment of a representative Commission to consider the question of the standardisation of the Nomenclature and Ratings of Electrical Apparatus and Machinery.”

2. Under the Status of the Commission each self-governing country desiring to join the Commission is authorised to form an Electro-technical Committee for its own country. The question of constituting a National Committee for India was considered by the Government of India in 1910. It was, however, decided to postpone its organization as the manufacture of electrical machinery in India was at that time on too small a scale to justify the formation of a Committee. The Government of India have, nevertheless, been represented at the meetings of the Commission and have subscribed regularly to its funds. Although little further progress has yet been made in the actual manufacture of electrical machinery in this country, the Government of India, after consultation with the more important firms interested in electrical matters in India, are of opinion that, in view of the large increase which has taken place in recent years in the sale and use of electrical machinery in this country, the time has now arrived when a local committee should be formed for the purpose of discussing points of interest specially relating to India, of forwarding to the Commission any resolutions which it may frame on the subject and, generally, of performing the functions of a National Committee.

3. According to the Statutes of the International Electro-technical Commission committees should be formed in each country by technical societies which deal with electrical engineering, either exclusively or in conjunction with other technical subjects, provided that such societies have been in existence for at least three years. In the absence of such technical societies a committee may be appointed by the Government. The Government of India are of opinion that the appointment of a National Committee may in the future most suitable be entrusted to the recently constituted Institution of Engineers (India), but as it was constituted as recently as the 13th September 1920 it will not possess the necessary authority until the 13th September 1923. For the intervening period the Government of India have therefore decided to constitute a National Electro-technical Committee for India under paragraph 3 of the Statutes of the Commission. The following gentlemen will form the first committee :—

- (1) A. C. Coubrough, Esq., C.B.E. (of Messrs. Mather and Platt, Limited, Calcutta).
- (2) A. Cochran, Esq., C.B.E., M.L.C., M.I.N.A., M.I.E. (India), A.M.I.E.S., (of Messrs. Burn and Company, Calcutta).
- (3) O. D. M. Hindley, Esq., M.A. (Cantab.), Chairman, Port Trust Calcutta.

4. The Committee will choose its own President and appoint a Secretary and proceed with its work in accordance with the Statutes of the International Electro-technical Commission. The subscription hitherto paid by the Government of India as a subvention to the Commission and towards the cost of its publication will in future be paid by the Committee to which the Government of India will, until further orders, make an annual grant of £130.

Ordered that a copy of this resolution be forwarded to all Local Governments and Administrations; to all departments of the Government of India; and to the members of the Committee; and that the resolution be published in the Supplement to the *Gazette of India*.

Secretary to the Government of India.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to provide additional revenues for the province of Bengal in order to remove part of the existing deficit in the provincial revenues. It is proposed to effect this by varying the rates of stamp duties as in the Bill.

Notes on clauses.

Clauses 1 and 2.—These clauses introduce the provisions of the Bill into Bengal and provide for the amendment of the Indian Stamp Act, 1899, by the remaining provisions of the Bill.

Clauses 3 and 5 are consequential on clause 4.

Clause 4 applies generally the duties indicated in Schedule IA to the instruments set forth in this clause, that is to say, to instruments which become chargeable with the rates of duty mentioned in Schedule IA by reason of their inclusion in that Schedule combined with their execution, negotiation or receipt in Bengal.

Clause 6 provides that, where duty under Schedule I has been chargeable in another part of British India on an instrument, which later becomes liable to the payment of the Bengal duty, the duty to be paid in respect of such instrument under this Bill shall be the Bengal duty as set forth in Schedule IA less the amount of duty already paid elsewhere in British India. This principle is applied to instruments on which the full duty chargeable under Schedule I has already been paid, and also to instruments on which such duty should have been but has not been paid. The three months limit to endorsements, provided in clause (b) of the proviso to sub-section (3) of section 32, is applied to all instruments so chargeable, the said instruments being otherwise treated as instruments executed out of British India and received into British India for the first time at the time when the Bengal duty became chargeable upon them, and being exempted from the severer provisions contained in clause (a) of the said proviso.

Clause 7 makes formal alterations in order to apply the provisions of sections 23A, 24 and 29 to the corresponding instruments indicated in Schedule IA.

Clause 8 introduces Schedule IA, which contains the substantive provisions as to the amount of duty chargeable in Bengal on the various kinds of instruments which fall within the scope of the new proviso to section 3.

This Schedule deals with all the classes of instruments, mentioned as chargeable with duty in Schedule I, except the following:—

Acknowledgement (No. 1) Bills of Exchange (No. 13), Certificate (No. 19), Cheque (No. 21), Delivery Order in respect of goods (No. 28), Letter of allotment of shares (No. 36), Letter of credit (No. 37), Policy of Insurance (No. 47), Promissory Note (No. 49), Proxy (No. 52), Receipt (No. 53) and Shipping Order (No. 60), in regard to which instruments all India legislation has been suggested to the Government of India.

RESOLUTION ON THE REPORT ON THE WORKING OF THE CO-OPERATIVE SOCIETIES IN BENGAL FOR THE YEAR ENDING 30TH JUNE 1921.

GOVERNMENT OF BENGAL.

DEPARTMENT OF AGRICULTURE AND INDUSTRIES.

Co-operative.

CALCUTTA, THE 30TH JANUARY 1922.

RESOLUTION—No. 461.

READ—

The report on the working of the Co-operative Societies in Bengal for the year ending 30th June 1921.

The principal administrative change of the year under report was the transfer of the control of the Co-operative Department from the Revenue Department of Government to the Ministry of Agriculture and Public Works

on the inauguration of the Reformed Government in January 1921. Mr. Thorp officiated as Registrar until the return from leave of Mr. Donovan, the permanent Registrar, in November 1920. During the year the Secretary of State sanctioned the appointment of an Assistant Registrar for each division. Four of these have already been appointed and the fifth will be appointed as soon as funds are available. Proposals for the re-organization of the department and for placing it on a permanent footing were submitted to Government towards the close of the year and are now under consideration.

2. The total number of societies increased from 5,408 at the beginning of the year to 6,366 at its close. The progress has not been so great as in the previous year when the number of societies increased by 1,152. There was a persistent demand for new societies, but the Registrar, recognizing the need for caution in regard to new commitments, found it necessary to limit the rate of expansion. In the two years ending 30th June 1921, the total increase in the number of societies has been 50 per cent. Neither of these years could be classed as prosperous, and the second was certainly a year of grave trade depression, financial difficulties and serious political and economic disturbances. In these circumstances, the Hon'ble Minister agrees with the Registrar that the recorded progress was the maximum consistent with financial security and the maintenance of adequate supervision. The total working capital of the societies has risen from Rs. 2,82,00,000 to Rs. 3,33,00,000. Of this sum the societies and their members provide over 40 per cent. Thus, while the capital employed is steadily increasing, the proportion contributed from outside sources is decreasing year by year, and the Hon'ble Minister regards this as a very encouraging feature. The number of members in the societies has risen from 217,175 to 242,085 in the year under report. The increase in the number of societies is thus 17.7 per cent. and in the working capital 17.9 per cent., while the increase in the number of members is only 11.4 per cent. The Registrar, however, points out that the membership of a society at the time of its registration and for a year or two afterwards is generally small. The large number of new societies has thus considerably reduced the average number of members. It is satisfactory that the number of fresh cases of liquidation was only 63, or about 1 per cent. of the total number of societies in existence.

3. Agricultural Credit Societies constitute about 90 per cent. of the total number and their working capital amounted to Rs. 1,22,62,000 as compared to Rs. 1,04,08,000 in 1919-20. The share capital paid up in these societies rose during the year from 1.53 to 3.02 lakhs, and deposits by members increased from 5.76 to 6.27 lakhs.

Central Banks have increased in number from 64 to 71, and their working capital rose from Rs. 1,04,04,395 to Rs. 1,21,22,554. About two lakhs of this, however, is a fictitious increase being the amount due to the Faridpur Central Bank by the Nurpur Central Bank. The actual increase in capital is thus about 15 lakhs. There was a considerable falling off in collections during the year under report. This was due to the unsatisfactory agricultural conditions and the economic depression of the year. As a result provincial and central banks were compelled to exercise the greatest caution in regard to new commitments, and the amount issued in fresh loans fell from 56.45 lakhs to 44.13 lakhs. The loans and deposits received by central banks also showed a slight decrease. This was due not to any weakening of public confidence but to a general shortage of money and the competitive rates offered by other borrowers. The total liquid resources of the central banks at the close of the year were 9.78 lakhs and the Registrar points out that this is a very low cover for deposits of Rs. 42,00,000 maturing in the following twelve months. Of these 42 lakhs, however, 24 lakhs are held by central banks from the Provincial Co-operative Federation. Taking the Federation and the Central Banks together, more than 50 per cent. of the deposits received from the public which mature in the next twelve months are covered by liquid resources. The Hon'ble Minister agrees with the Registrar that the position is quite safe, but he desires to impress on the Central Banks the inadvisability of relying too much on the Federation and letting their own liquid resources run too low.

The Bengal Provincial Co-operative Federation is in a very satisfactory position. Although its rates are sometimes less and never more than the rates offered by Government and public bodies, it received from the public fresh deposits of over five lakhs of rupees during the year under report, compared to less than one lakh of rupees in the previous year. It has followed a careful and cautious policy and this has enabled it to retain the confidence of depositors.

4. The Bengal Co-operative Organization Society, which is doing useful work as a central bureau of information and advice on co-operative matters, devoted particular attention to the solution of problems peculiar to Calcutta. As a result of the activities of its Housing Committee, the organization of a co-operative housing society has now become a matter of practical politics. The Stores Sub-Committee is engaged in an attempt to organize co-operative coal supply in Calcutta. The departmental museum has been instrumental in bringing the work of the industrial societies to the notice of the public and securing orders for them.

5. There are now eleven Agricultural Purchase and Purchase and Sale Societies as compared with seven in the previous year. On the whole, these societies have shown satisfactory progress. Their growth is in no way forced. The Co-operative Department are well aware of the general incapacity of cultivators to manage the business affairs of these societies and they do not too readily encourage their organisation. In spite of this, cultivators have insisted on making an attempt in different districts. This development is satisfactory inasmuch as it proves that these cultivators no longer regard co-operation as an easy means of getting cheap loans, but understand and appreciate the true principles of the co-operative movement. The Khepupara Supply and Sale Society has been a conspicuous success. It now serves nearly 3,000 families and is rapidly expanding its business. It has recently erected, at a cost of Rs. 18,000, a godown capable of storing 40,000 maunds of paddy which will enable the members, who have hitherto been forced to sell their produce at a sacrifice for want of storage room, to wait for a favourable market. The co-operative store at Naogaon is another successful institution. Its business is rapidly developing and it has now two shops in the town of Naogaon; it has also started a printing press which is executing orders for co-operative societies in every part of the province. The milk societies in the Barasat subdivision unfortunately received a serious setback owing to circumstances which might have been avoided by timely action. When the situation was realized prompt measures were taken to retrieve the situation and the crisis is now past. The Naogaon Ganja Cultivators' Co-operative Society also passed through a severe crisis during the year. An attempt to spread the non-co-operation movement in the area completely failed, but internal dissensions for which the agitators were to some extent responsible, considerably hampered the development of its work. By the end of the year, however, these differences were composed, and there is every reason to hope that this society will now continue its former prosperous career.

The number of non-agricultural societies increased from 350 in the previous year to 438 in the year under report. Of these 148 are credit societies with a working capital of Rs. 55,82,000. Taken as a whole, the returns of these societies are most satisfactory. The Calcutta Credit Societies, 33 in number, are a sound financial group and afford great assistance to 23,000 middle class employees in Calcutta offices. An interesting feature of the Chittagong group of societies is the fact that punctuality in repayment is encouraged by allowing a rebate of interest on loans repaid on the due date, whereas in other districts penalties are imposed for unpunctuality. The system in force at Chittagong is in the true spirit of co-operation and it is satisfactory to find that it has proved more efficacious than the system of penalising unpunctuality.

The number of non-agricultural supply and sale societies has risen from 18 to 90 in two years. This large increase was due to economic causes. High prices and profiteering induced people of the middle classes to attempt co-operative distribution. It was found, however, that many of these

societies were working on wrong lines. The true spirit of co-operation was absent; members were disloyal, credit was too freely given, and reckless attempts were made to under-sell the market. A halt was therefore called in the organisation of new societies and the officers of the department devoted their attention to the improvement of existing societies. Some improvement has already been effected, but many of the societies are so bad that the only course is to close them. The Registrar points out that these failures have their value and that the experience gained will lead to an advance on sounder lines.

The number of Weavers' Societies has increased to 117, but it is only in Bankura that anything like an outstanding success has been achieved. Owing to the prevailing economic conditions, the turn-over of the Bankura Industrial Co-operative Union was considerably smaller than in the preceding year, but in other respects the union made distinct progress. The societies have improved and bad workers and bad societies have been replaced by good workers and good societies. The quality of the work has greatly improved and cloth is now woven at Bankura which the weavers could not have attempted to make two or three years ago. Financially too the union is much stronger. The paid-up share capital exceeds Rs. 10,000 and nearly half of it belongs to the weavers themselves.

6. An important feature of the situation is the increasing interest and sympathy shown by the public towards the co-operative movement in practically every part of the province. In particular, the interest of the zamindars in the movement has shown a marked increase and many of them have rendered valuable assistance, both financially and by propaganda. To these and to numerous other gentlemen, official and non-official, to whom the department is indebted for assistance, the thanks of the Hon'ble Minister are due.

7. This is the last report on the working of the Co-operative Department which will be submitted by Mr. Donovan. He has been Registrar of Co-operative Societies since June 1917 and has relinquished charge of his office since the close of the year under report. The Hon'ble Minister takes this opportunity of expressing his thanks to Mr. Donovan for the untiring zeal and energy with which he discharged his duties, and of congratulating him on the great stride which the movement made during his tenure of office. The Hon'ble Minister notes with pleasure the good work of the staff which the Registrar has brought to the notice of Government.

By order of the Government of Bengal
(Ministry of Agriculture and Public Works),

J. A. L. SWAN,
Secretary to the Government of Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL.

Final Forecast of the Sugarcane Crop of Bengal, 1921-22.

(Note.—On an average of the five years ending 1919-20, the area under sugarcane in Bengal has represented some 2·4 per cent. of the total area under sugarcane in British India.

Character of the season.—As reported in the second forecast lack of soil moisture at the beginning and insufficient rainfall later on during the months of May and June were generally unfavourable to the planting and growth of the crop in the western districts while in the rest of the Presidency the crop was not much affected. Since then, however, favourable conditions generally prevailed from July to September and the crop improved greatly in spite of some damage caused by heavy rainfall and flood in certain districts. Subsequently drought since October has tended somewhat to spoil what would otherwise have been a fairly favourable season.

Acreage.—The total area planted with sugarcane for the Province is estimated at 220,900 acres this year against 218,800 acres last year.

Outturn.—From the Appendix I attached to the report, it will be seen that the district of Darjeeling reports a bumper crop; two districts (namely Rangpur and Noakhali) report a normal crop; twenty districts a crop varying from 75 to 92 per cent. and three districts a crop as 67 per cent. each. The district of the Chittagong Hill Tracts reports a crop as low as 58 per cent.

According to the above estimates, the average outturn of the crop for the Province works out at 82 per cent. of the normal against 88 per cent. last year.

Taking 36 maunds as the normal rate of cane gur per acre the gross outturn for the Province is estimated at 239,500 tons this year against 254,600 tons last year.

Other sources of gur.—The total quantity of gur likely to be obtained from date palm juice is estimated at 119,800 tons this year against 124,100 tons last year.

The total quantity of gur for the Province from all sources is thus estimated at 359,300 tons against 378,700 tons last year.

REPORT ON THE WORKING OF THE LICENSED WAREHOUSE AND FIRE BRIGADE ACT FOR THE YEAR ENDING 31st MARCH 1921.

NOTIFICATION.

Minister in charge : The Hon'ble Sir S. N. Banerji, Kt.

No. 424M.—The 24th January 1922.—The following is published for general information, under section 41 of the Licensed Warehouse and Fire Brigade Act, 1893 (Bengal Act I of 1893).

S. W. GOODE,

Secretary to the Government of Bengal (offg.).

No. F. B.-552—1183, dated Calcutta, the 18th October 1921.

From—R. CLARKE, Esq., C.I.E., Commissioner of Police, Calcutta,

To—The Secretary to the Government of Bengal, Local Self-Government Department.

In accordance with paragraph 41, section 2 of the Licensed Warehouse and Fire Brigade Act (I of 1893), I have the honour to submit herewith the report on the working of the Fire Brigade and Ambulance Department for the year ending the 31st March 1921.

No. F. B. 552—1118, dated Calcutta, the 21st September 1921.

From—CAPTAIN BERNARD A. WESTBROOK, Chief Officer, Fire Brigade, Calcutta,

To—The Secretary to the Government of Bengal, Local Self-Government and Education Department.

(Through R. Clarke, Esq., C.I.E., Commissioner of Police, Calcutta.)

I have the honour to present the following report on the working of the Calcutta Fire Brigade for the year ending the 31st March 1921.

2. I returned from leave and resumed charge of the Fire Brigade on the 4th December 1920. During my absence, Second Officer Jarrett officiated.

3. **Financial statement.**—The statement of the receipts and expenditure and payments made by the municipalities within the jurisdiction of the Fire Brigade Act, I of 1893, is given in Appendix I.

4. **Fires, etc.**—During the year under review the Fire Brigade received calls for a total number of 614 fires, or supposed fires, being an increase of 64 over the previous year. The above is classified as under—

Fires	460
False alarms	149
Calls for special service	5

It is unsatisfactory to note that no less than 96 of the above false alarms were wilful. In two instances the offenders were arrested by the police. The Fire Alarm system has been of considerable utility, and undoubtedly many serious fires have been averted owing to this direct and rapid means of communication with the Brigade.

On two	days 7 fires or supposed fires occurred	...	14
On four	" 6 ditto ditto	...	24
On seven	" 5 ditto ditto	...	35
On twenty-six	" 4 ditto ditto	...	104
On fifty-five	" 3 ditto ditto	...	165
On eighty-five	" 2 ditto ditto	...	170
On one hundred and two	" 1 ditto ditto	...	102
Total			614

The actual number of calls received during the year was 968 as compared with 811 in the previous year. This figure includes instances where more than one call was received for the same fire. Forty-eight fires occurred in the premises licensed under the Licensed Warehouse and Fire Brigade Act, I of 1893, as against 38 in the preceding year. The nature of the trades requiring licenses under this Act are enumerated in Appendix XVII.

5. **Fire loss.**—The total damage caused by fire and water during the year under review is estimated at Rs. 23,57,085, being a decrease of Rs. 4,55,937 in the last year, and an increase of Rs. 11,31,761 over the average of the past ten years. This comparatively heavy fire loss is chiefly due to the abnormal number of fires in the jute areas. It is satisfactory to note that the average damage per fire was Rs. 3,839 as compared with Rs. 5,450 for the past ten years.

6. The following summaries are given in the appendices :—

	Appendix
Districts in which fires or supposed fires occurred ...	III
• The number of fires on every day and month throughout ...	IV
Daily and hourly summary of fires or supposed fires ...	V
Damage caused by fire, etc., in various districts ...	VI
Classification of fires and calls ...	VII
Means by which fires were extinguished ...	VIII
Short reports of fires of Rs. 1,000 damage and over ...	IX
Causes of fires, and trades, etc., affected ...	XV
Comparative statement for the past ten years ...	XVIII

7. **Appliances.**—Appendix X shows the distribution of the principal appliances in commission by the Fire Brigade, and Appendix XI gives the number of times each appliance has been turned out in response to fire calls. It is estimated that motor appliances travelled 5,596 miles and horse drawn appliances 190 miles during the year in responding to and returning from calls. A new motor fire engine from Messrs. Leyland and Company was received on 20th December 1920. Considerable difficulty has been experienced with delivery hose throughout the year. Owing to the extra cost and low rate of exchange the budget heading in this respect has had to be considerably exceeded. Frequently at jute fires a large quantity of hose is in use for periods often exceeding a week, and experience has shown that such conditions have a remarkably bad effect on the hose and considerably more so than would be normally anticipated.

8. **Fire stations.**—Appendix XII gives the number of times each Fire Station has been turned out in response to fire calls, together with monthly figures. The headquarters of the Fire Brigade is still located in premises rented from the Samavaya Corporation, Limited, in Corporation Place and no further steps have been taken to secure a suitable site for the erection of permanent headquarters. A high rent is paid for the present buildings which are not suitable for the purposes required, and undoubtedly the efficiency of the Brigade can be improved by the provision of suitable headquarters with proper workshops, drill yard and convenient quarters for the men. I am pleased to be able to report that progress has been made in building the District Fire Station in Central Avenue. This station will have accommodation for five appliances and will protect a very important and congested area. It is anticipated that the station will be occupied about the beginning of October 1921. Plans and estimates have been prepared for extending Chitpur Station, and provision for this is being made in the budget of 1921-22. It is very important that the station should be put on a footing commensurate with the many serious fire risks it protects. A District Fire Station is urgently needed at the Kidderpore Docks, and smaller fire stations are required at Burra Bazar and Sova Bazar. The small fire stations at Watgunge and Palmer's Bridge have been vacated owing to the increased number of motor appliances employed, and the men and appliances have been distributed amongst the various stations of the Brigade.

9. **Staff.**—The strength of the Fire Brigade was 222 at the beginning of the year, and under Government order No. 2902M., dated the 30th November 1920, the number of the European firemen has been reduced from 7 to 4 from 1st December 1920. The actual strength of the Brigade was 219 at the close of the year. The curtailed European strength is barely sufficient to cope efficiently with the large amount of work involved, and does not provide a sufficient margin for sickness, injuries or leave.

10. Fatalities and Accidents.—Short details of fires and calls involving loss of life and accidents are given in Appendix XIV. I regret to note that during the year (1) Engineer Bishop met with an accident which resulted in the loss of his right eye and (2) Khalasi Dost Mahommed Khan accidentally slipped and fell from the motor engine. He sustained serious injuries and was admitted to hospital, where he subsequently died. Government sanctioned a pension of Rs 6 per month to his wife (Government order No. 1188L.G., dated 10th February 1921). The total number of fatalities during the year was 29 as compared with 46 in the previous year. Of these 3 were cases of suicide by burning. First-aid was rendered in almost all cases of injury by the Fire Brigade, and injured persons were conveyed to hospital.

11. Horses.—The number of the horses was the same as last year.

12. Water Supply.—For several years past the extremely serious conditions due to inadequate water supply had been commented upon in the annual report, and I regret to say that no action has been taken by the municipalities concerned. The conditions are worse now than previously owing to many tanks having been filled up on sanitary grounds and for prevention of mosquitoes. Calcutta has a system of unfiltered water mains which is used for fire extinguishing. Numerous complaints have been submitted to the Water-works Department regarding the inadequacy of the water supply, in reply to which the Fire Department is officially informed that no improvement can be expected until a new water system is completed. I understand that new scheme will take at least five years to instal, and the present deterioration of water supply will continue, probably more rapidly than hitherto, due to extension of mains, more connections, wear and tear of machinery, etc. Unless immediate steps are taken to improve matters very serious fires must inevitably occur. An estimate was put up by the Water-works Executive Engineer to instal seventy-five 5" hydrants on suitable mains which will enable fire engines to obtain a better supply, but this estimate was cut down to twenty-five 5" hydrants. In a city such as Calcutta this number is totally inadequate.

Regarding Howrah and Chitpur the dangerous state of affairs was specially pointed out and emphasized by the Commissioner of Police, who said in the covering letter to the Government of Bengal with the annual report of the Fire Brigade for the year ending 30th March 1920—"The question of the water supply in the districts of Howrah and Chitpur demands immediate attention as these areas comprise very dangerous fire risks." I regret to say that not only has nothing been done to improve the supply, but conditions are even worse now as above noted, and the various areas referred to are becoming more congested with warehouses, etc. Repeated representations have been made to these municipalities, and the following is an extract from a letter received from Howrah:—

"With reference to your letter No. F. B. 288-299, dated the 25th February last, on the subject of water supply for fire extinguishing purposes, I have the honour to inform you that the scheme for effective water supply in the locality appears to be too costly to permit this municipality to meet at the present moment, and mill owners who are directly interested in them have refused to pay any moiety of the cost of the scheme."

It is no uncommon occurrence for as many as 300 lengths of hose to be used at big fires owing to the distance the water is away from the risks. This is a source of considerable expense to the Fire Brigade, and does not permit of efficient working. The comparative freedom from very serious fires appears to have created an atmosphere of false security. It is hoped that the question of water supplies will receive the urgent attention its importance demands.

13. Fire Float.—I am glad to be able to report that an order has been placed by the Commissioners for the Port of Calcutta for a new fire float, and delivery is expected about the end of the present year. This vessel will pump about 4,000 gallons per minute and will be a great acquisition, especially as practically the whole of the serious fire risks in Chitpur and Howrah have to rely upon the river for water supply for fire extinguishing.

The present fire float, which consists of a hopper barge with a land steam fire engine on it, is obsolete and incapable of performing the duties required of it. It is maintained by the Commissioners for the Port of Calcutta, and is under the direction of the Fire Brigade at fires.

14. Street Fire Alarms, Telephones and Electrical Communications.—The means by which fire calls have been transmitted to the Fire Brigade during the year are shown in Appendix II. Appendix XVI is a list showing the positions of the Street Fire Alarms in commission. I regret to have to report a considerable increase in the number of false alarms both wilful and due to electrical defects. The following alterations have been made in the locations of the Street Fire Alarms :—

Lower Circular Road and Chowringhee to in front of Atlas Jute Press, Chitpur.

Barrackpore Trunk Road to near entrance to Union Jute Press.

Majerhat Bridge at Diamond Harbour Road to at the corner of Chitpur Ghat Street and Turner Road.

Gun Foundry Road to opposite Bengal Hydraulic Press near Gun Foundry Road.

It is hoped that false alarms due to electrical defects will soon be more or less eliminated, as the Bengal Telephone Company report that as soon as the various fire alarm lines are transferred from the old exchange to the new exchange such defects will be remedied. Power to punish adequately offenders who give wilful false alarms is being requested from Government. The present punishments have no deterrent effect. I take the opportunity of thanking the Bengal Telephone Company for the interest they continue to display in all matter appertaining to Fire Brigade work and for the prompt attention given to all defects on fire lines.

15. Inspection Department, theatres and places of public amusement.—Considerable progress has been made during the year in respect to safeguarding the public in places of amusement. Experience has shown that there has been overlapping of different authorities in the matter—a factor which has a deterrent effect on the enforcement of the laws—and it seems advisable for the control of theatres, etc., to be vested in one authority. The fines imposed in the Municipal Court on theatres for breach of the theatre by-laws during the year amounted to Rs. 2,524 as compared with Rs. 11,315 in the previous year.

In connection with the Licensed Warehouse and Fire Brigade Act, I of 1893, during the year under review 5,196 inspections have been made (exclusive of theatres and places of public amusement); 319 applications for licenses and complaints have been attended to and disposed of. One hundred and eighty-seven prosecutions were instituted under section 14 of Act I of 1893, which resulted in 139 persons being fined aggregating in all Rs. 2,744, 21 persons being warned, 11 acquitted and 16 cases withdrawn and filed.

16. Fire Brigade-Workshops.—Under the heading of “Fire Stations” reference has been made to the Brigade Workshop. The workshops at headquarters are inadequate for the amount and class of work to be done, and when new and up-to-date workshops are provided repairs and building of machines will be greatly facilitated. Although the number of machines in the Brigade has greatly increased during the past few years the strength of the workshop staff has remained practically the same, and additions will have to be made to the staff.

17. General.—The Calcutta Fire Brigade protects the municipalities of Calcutta, Cossipore-Chitpur, Howrah, Maniktala and Garden Reach and may attend fires outside the boundaries of these municipalities, but not exceeding a radius of 6 miles from the Central Fire Station, provided that appliances can be spared and on payment of a prescribed fee. Appendix XIX gives the Government order relating to this and the form which should be signed prior to the Fire Brigade leaving the jurisdiction of the above municipalities. The actual area protected by the Calcutta Fire Brigade is just over 11½ square miles and the population included in same is about 1½ millions.

18. **Ambulance Service.**—The Motor Ambulance Service has a lot of valuable work, no less than 13,785 calls having been received during the year under review as compared with 16,060 calls in the previous year. Two more new Ford Ambulances have been purchased and put in commission during the year. Appendix XXI gives the number of calls received every day and month throughout the year, and Appendix XXII gives the scale of charges for the use of the motor ambulances. The Ambulance Department is financially maintained by Government and the Corporation of Calcutta at the proportion of one-third and two-thirds respectively. Appendix XX gives a statement of receipts and expenditure incurred by the Motor Ambulance Service.

N.B.—Some Appendices referred to in the above report are not printed in the Gazette.

APPENDIX I.

Statement showing receipts and expenditure of the Fire Brigade for 1920-21.

The year opened with a balance of Rs. 1,25,909-15-10 and the receipts amounted to Rs. 4,47,534-11-3 and the total expenditure to Rs. 4,61,031-2-7, leaving a balance of Rs. 1,12,413-8-6.

Receipts.

The receipts show an increase of Rs. 20,237-11-3 over the estimate on account of the Cossipore-Chitpur Municipality having paid up during the year the sum of Rs. 16,827, which was the balance due from them out of the contribution payable for the year 1919-20. The credits on account of hire of engines, etc., in connection with calls outside the Brigade jurisdiction amounted to Rs. 2,489. The fees under the Petroleum Act and Fire Works Act show an increase of Rs. 2,373-8 and Rs. 40, respectively, over the estimate.

Expenditure.

Under head "Establishment" there was an increase of Rs. 3,103-7-5 owing to the revision in the pay of the staff during the year.

The total expenditure under head "Contingencies" amounted to Rs. 3,18,464-6-9 against a budget grant of Rs. 4,22,402, showing a decrease of Rs. 1,03,937-9-3. The saving includes (i) Rs. 27,000 provided in the budget for the purchase of one combined appliance including pump, ladders and first-aid cylinders, (ii) construction of Central Avenue Fire Station Rs. 58,145 and (iii) rents and taxes Rs. 16,800.

Under head "Other charges" there was an increase of Rs. 2,563-4-5 due to the increased expenditure on water pressure.

Leave Procedure Rules made under Fundamental Rule 74 (b).

REPORT OF ARRIVAL IN THE UNITED KINGDOM.

1. A Government servant taking leave in the United Kingdom must report his arrival in that country to the High Commissioner for India.

PAYMENT OF LEAVE SALARY.

2. No Government servant can begin to draw leave salary from the Home Treasury until he has presented to the High Commissioner a leave-salary certificate in such form as the Auditor-General may prescribe.

3. Leave-salary is issued from the Home Treasury monthly in arrear on the first day of each calendar month.

4. Payment will be made, at the option of the Government servant drawing leave-salary, by any of the following methods:—

- (a) To the Government servant himself on his personal application.
- (b) To his banker or other agent, duly authorised under power-of-attorney, on production of a life certificate duly filled up and executed. In cases where the banker has guaranteed the Secretary of State or the High Commissioner against loss consequent upon dispensation with proof of existence, a life certificate is unnecessary.

Note.—A supply of life certificate forms may be obtained from the High Commissioner.

- (c) To the presenter of a payment form comprising a receipt and a life certificate, both duly completed by the Government servant.

Note.—If the Government servant intimates to the High Commissioner his election of this method, he will be regularly supplied with the requisite payment form as the due date of issue approaches.

5. No Government servant can begin to draw leave-salary from a Colonial treasury until a warrant in form I has been issued in his favour. Such warrants will be issued in triplicate. The original, bearing the Government servant's signature, will be forwarded by the issuing authority to the Colonial authority concerned; the duplicate to the High Commissioner; and the triplicate will be retained by the Government servant. Payment of leave-salary will not be made unless the Colonial authority is in possession of the original and the Government servant of the triplicate of the warrant.

6. Each payment of leave-salary must be endorsed upon the back of both the original warrant and the triplicate, and an acknowledgment of receipt must be endorsed by the Government servant upon the back of both copies.

7. When no space for the entry of endorsements of payment remains upon the back of a warrant, or when a warrant is lost or destroyed, a fresh warrant will be issued by the original issuing authority on the application of the Government servant submitted through the Colonial disbursing officer.

8. If the transfer from one Colony to another of payment of the leave-salary of a Government servant is sanctioned by the Colonial authorities, such transfer must be reported by the Government servant to the Governor-General in Council and to the High Commissioner.

9. (a) If a Government servant who is drawing his leave-salary in a Colony desires to transfer payment to the Home Treasury, he can do so on production of his warrant to the High Commissioner.
- Transfer of payment from the Home Treasury to a Colony and vice versa.
- (b) If a Government servant who is drawing his leave-salary from the Home Treasury desires to transfer payment to a Colony, he must obtain a warrant in Form I from the High Commissioner, who will forward the original of the warrant to the Colonial authority concerned.
- (c) A transfer sanctioned under clause (a) or (b) of this rule must be reported by the Government servant to the Governor-General in Council.

EXTENSION OF LEAVE.

10. A Government servant absent from India on leave who desires an extension of his leave must make application for such extension not less than three months before the expiry of his leave. An application made within three months from such expiry will not be considered unless special reasons for consideration exist.
- General rule.

11. An application for extension of leave by a Government servant on leave in Europe, North Africa, America or the West Indies must be made to the High Commissioner. Unless the extension is desired on medical grounds or is for a period of not more than fourteen days, the application must be accompanied by evidence that the Government on whose cadre the Government servant is borne has been consulted and has no objection to the extension. It is in exceptional cases only that the High Commissioner will grant an extension without the production of such evidence, and then for such period only as may be necessary to obtain the orders of the Government concerned, which will be sought by telegraph at the applicant's expense.
- Applications by Government servants on leave in Europe, North Africa, America or the West Indies.

12. If a Government servant on leave in any of the localities named in rule 11 desires, on medical grounds, an extension for a longer period than fourteen days, he must satisfy the Medical Board at the India Office of the necessity for the extension. In order to do so, he must, as a general rule, appear at the India Office for examination by the Board; but in special cases, and particularly if he be residing at a distance of more than sixty miles from London, a certificate in a form to be obtained from the High Commissioner may be accepted if signed by two medical practitioners. A certificate obtained outside the United Kingdom and signed by foreigners must be attested by consular or other authority as bearing the signatures of qualified medical practitioners.

13. If a Government servant on leave in any of the localities named in rule 11 desires, on grounds other than medical, an extension of leave granted on medical certificate, he must satisfy the Medical Board at the India Office by the procedure described in rule 12, that he has recovered his health.

14. An application for extension of leave by a Government servant on leave out of India elsewhere than in the localities named in rule 11 must be made to the authority which granted the leave.
- Applications by Government servants on leave elsewhere out of India.

15. If an application made under rule 14 is for an extension of leave on medical certificate, it must be accompanied by a certificate from two medical practitioners in the following form:—

"We hereby certify that we have carefully examined C. D. of the _____ who is suffering from _____ and we declare upon our honour that, according to the best of our judgment and belief, he is at present unfit for duty in India, and that it is absolutely necessary for the recovery of his health that his present leave, which will expire in India on _____, shall be extended by _____ months." weeks

Date _____

Place _____

The certificate must describe in full detail the nature of the disease and the present condition of the Government servant. If it be signed by

foreigners, it must be attested by consular or other authority as bearing the signatures of qualified medical practitioners.

16. An extension of leave will not be granted by the High Commissioner to a Government servant to whom no leave-salary certificate has been issued, or who has exchanged his leave-salary certificate for a warrant before leaving India, unless he produces a certificate of leave in form II.

Certificate of leave necessary before extension can be granted to a Government servant who is not in possession of a leave-salary certificate.

RETURN FROM LEAVE.

17. A Government servant who is required, by or under fundamental rule 71, to produce a medical certificate of fitness before returning to duty, must obtain permission to return to duty before so returning.

18. If the Government servant desiring to return is on leave in any of the localities named in rule 11, his application must be made to the High Commissioner and he must satisfy the Medical Board at the India Office of his fitness to return at least two months before the expiry of his leave. In order to do so, he must follow the procedure prescribed in rule 12. When the Medical Board has been satisfied, the High Commissioner will grant permission to return.

19. If the Government servant desiring to return is on leave out of India elsewhere than in the localities named in rule 11, his application must be made to the authority which granted his leave and must be accompanied by a certificate of fitness in the prescribed form.

20. Permission to return cannot be granted to a Government servant to whom no leave-salary certificate has been issued, or who has exchanged his leave-salary certificate for a warrant before leaving India, until he produces a certificate of leave in form II.

21. Before returning to duty, a Government servant on leave in Europe must obtain a last-pay certificate from the High Commissioner. A last-pay certificate cannot be granted to a Government servant to whom no leave-salary certificate has been issued unless he produces a certificate of leave in form II. A Government servant who has drawn his leave-salary on a warrant must, on return to India, deliver to the audit officer his copy of the warrant, which will serve as a last-pay certificate.

NOTE 1.—No leave-salary is payable on this certificate.

NOTE 2.—This certificate must be produced before the High Commissioner with any application for an extension of leave or permission to return to duty or the grant of a last-pay certificate.

Memorandum explanatory of each rule in the rules of leave procedure made under fundamental rule 74 (b).

Rule 1—is taken from article 222, Civil Service Regulations, with the substitution of the High Commissioner for the Secretary of State.

Rule 2.—This is taken from articles 867 and 874, Civil Service Regulations, and covers the first part of article 886 also. The High Commissioner has been substituted for the Secretary of State, as he will in future pay leave-salary on behalf of the Government of India.

Rule 3—replaces the first part of article 869 of the Civil Service Regulations. The old arrangements of quarterly calculations and rounded instalments will not be maintained in future.

Rule 4—replaces the second part of article 869, Civil Service Regulations. At the suggestion of the High Commissioner, the procedure has been modified in some respects.

Rule 5—contains the substance of the first part of article 889, Civil Service Regulations.

Rule 6—is the second part of article 889, Civil Service Regulations, amplified in accordance with existing practice.

Rule 7—contains the substance of the last part of article 889, Civil Service Regulations.

Rule 8—contains the relevant part of article 891, Civil Service Regulations, with the High Commissioner substituted for the Under-Secretary of State.

Rule 9—provides for certain cases for which the old rules make no specific provision. It is considered unnecessary, in this connection, to provide for article 871 (b), Civil Service Regulations, as the procedure thereby prescribed follows necessarily from rules 2 and 5.

Rule 10—contains a regulation previously embodied in articles 299 (a) and 300, Civil Service Regulations.

Rule 11—contains the substance of the first paragraph of article 299 (a), Civil Service Regulations, and of article 299 (b), with the substitution of the High Commissioner for the Secretary of State. The rule makes no mention of commutation of leave, which ceased to exist, under that name, when the fundamental rules came into force. It is considered unnecessary to repeat in these rules the provision that the Government servant on leave must pay the cost of telegrams. The High Commissioner will see to this, and the fact will be mentioned in the memorandum of instructions to officers proceeding on leave. The note under article 299 (b) has been omitted for similar reasons.

Rule 12—contains the substance of the second paragraph of article 299 (a), Civil Service Regulations, read with article 838 (a).

Rule 13—contains the substance of the 1st part of the third paragraph of article 299 (a), Civil Service Regulations. The second part of that paragraph is omitted, as it is considered to be unsuitable under the new leave rules.

Rule 14—is taken from the first part of article 300, Civil Service Regulations.

Rule 15—is article 838 (b), Civil Service Regulations, re-worded in places.

Rule 16—is taken from articles 872 and 873, Civil Service Regulations.

Rule 17.—The fact stated in this rule is nowhere in the Civil Service Regulations laid down as a general rule, but it follows as a matter of course from the provision in fundamental rule 71 for the production of a medical certificate.

Rule 18—contains the substance of the relevant portion of article 224, Civil Service Regulations, with the substitution of the High Commissioner for the India Office.

Rule 19—also follows as a matter of course from fundamental rule 71. The Government of India propose to delegate the power of extending leave to the authority which granted it.

Rule 20—is taken from articles 872 and 873, Civil Service Regulations.

Rule 21.—"Leave-salary Certificate" is the new title adopted by the Auditor General in his leave procedure rules. The requirement of such a certificate is taken from article 886, Civil Service Regulations; that of a certificate of leave is obviously necessary before a last-pay certificate can be granted; and the delivery of a warrant is taken from article 890, Civil Service Regulations.

CALCUTTA, THE 8TH FEBRUARY 1922.

RESOLUTION—No. 275Edn.

By Government resolution No. 965T.—Edn., dated the 26th October 1920, a Selection Committee was appointed to advise Government on the

selection of candidates for direct appointment to the Indian Educational Service and the Provincial Educational Service (now called the Bengal Educational Service). The Government of Bengal (Ministry of Education) are now pleased to issue the following modifications of that resolution and rules to regulate the selection of candidates :—

- (i) The Selection Committee shall meet as often as necessary, and its functions shall be to consider all applications of candidates for appointment either to the Indian Educational Service or to the Bengal Educational Service referred to it by the Local Government and to maintain a panel or panels of approved candidates.
- (ii) All candidates of Bengal domicile, wherever resident, who wish to be considered for appointment to any vacancies that may occur in the Indian Educational Service, should apply for appointment to the Government of Bengal. Such applications will be referred to the Selection Committee for consideration and particulars of the candidates approved will be communicated by the Committee to Government and recorded in the lists kept by the Secretary to the Committee. The Local Government will forward a copy of such records to the Government of India in the Department of Education and Health.
- (iii) A candidate for a particular appointment in any other province who is (a) permanently or temporarily resident in Bengal or (b) an Indian domiciled in Bengal though resident elsewhere may, when sending his application to the Government of Bengal, send also a copy of his application, clearly marked as such, directly to the Government of the province in which the appointment is to be made. The Government of Bengal will forward the application with its views to the Government concerned, after consultation, in cases where the applicant is domiciled in another province, with the Government of that province.
- (iv) On the occurrence of a vacancy in the cadre of the Indian Educational Service the Local Government will consider whether it should be filled by a candidate recruited in India or by a candidate recruited in England by the Secretary of State. In the former case the Local Government will make its recommendation to the Government of India, who will submit to the Secretary of State for approval and appointment the name of the person finally selected.
- (v) If on the occurrence of a vacancy in the Indian Educational Service a suitable Indian candidate is known to be in England, the Local Government will furnish full particulars to the Government of India for communication to the Secretary of State that his case may be considered by the Selection Committee in England.
- (vi) Before a candidate resident in India is recommended to the Government of India for appointment to the Indian Educational Service his physical fitness should be examined by a Medical Board.
- (vii) Candidates for college posts in the Bengal Educational Service should apply on the proper form to the Deputy Secretary in the Education Department, Government of Bengal. A panel of approved candidates will be kept by the Selection Committee, and Governing Bodies of colleges, subject to any special powers of appointment possessed by any Governing Body and to any special administrative needs of the Department, will be invited to make recommendations from the panel as vacancies arise. These recommendations will be considered by Government by whom the appointments will be made.

(viii) All candidates for appointment either to the Indian Educational Service or to the Bengal Educational Service should obtain the prescribed forms of application from the Assistant Director of Public Instruction, Bengal, Writers' Buildings, Calcutta.

The personnel of the committee will be as notified in resolution No. 965T.—Edn., dated the 26th October 1920. The members other than *ex officio* members will hold office until 31st December 1922.

ORDER—Ordered that the resolution be communicated (1) to the Secretary to the Selection Committee for information and (2) to the Director of Public Instruction, Bengal, for information and for communication to the Governing Bodies of Government colleges.

Ordered also that the resolution be published in the *Calcutta Gazette* for general information.

Final Report on the Cotton Crops of Bengal, 1921-22.

(NOTE.—On an average of the five years ending 1919-20, the area under the cotton crops in Bengal has represented some 0·3 per cent. of the total area under cotton in India.)

There are two crops—early and late. The “early” crop is chiefly grown in the Chittagong Hill Tracts and in the Tripura State and to a small extent in other districts. The “late” crop is grown in Bankura and Midnapore.

Character of the season.—The weather was not favourable for the early crop at the outset owing to absence of rain. Subsequently monsoon showers caused the crop to recover, but the excessive rain at flowering time in October greatly affected the outturn in the Chittagong Hill Tracts where the crop is mainly grown. Elsewhere a fairly good outturn was obtained.

The conditions for the late crop were favourable up till October, but lack of rain since then has tended to mar what would otherwise have been a good crop.

Area sown.—The total area sown with the early crop is returned at 64,143 acres and that with the late crop 1,713 acres against 69,239 (revised) and 1,707 acres, respectively, in the corresponding forecast of last year.

Outturn.—The estimated outturn of the early crop is returned at 14,244 bales this year against 20,164 (revised) bales in the corresponding forecast of last year. The outturn of the late crop is estimated at 890 bales this year against 892 bales in the corresponding forecast of last year.

Director of Agriculture, Bengal.

Orders and Notifications by the Government of India.

The following notifications, issued by the Government of India in the Home Department, published in the *Gazette of India*, dated the 11th February 1922, are republished for general information.

H. L. STEPHENSON,
Chief Secretary
to the Government of Bengal.

NOTIFICATIONS.

JUDICIAL.

Delhi, the 3rd February 1922.

No. F.-228.—In pursuance of sub-section 2 (i) of section 101 of the Government of India Act, the Governor General in Council is pleased to appoint Mr. E. B. H. Panton, I.C.S., to act as an Additional Judge of the High Court of Judicature at Fort William in Bengal, with effect from the date of his assumption of the duties of his office up to the 31st March 1922, both days inclusive, or until further orders.

POLITICAL.

Delhi, the 10th February 1922.

No. 340.—The following Communiqué, dated the 6th February 1922, is published for general information.

The manifesto issued by Mr. Gandhi on the 4th February justifying his determination to resort to mass civil disobedience contains a series of mis-statements. Some of these are so important that the Government of India cannot allow them to pass unchallenged. In the first place they emphatically repudiate the statement that they have embarked on a policy of lawless repression and also the suggestion that the present campaign of civil disobedience has been forced on the non-co-operation party in order to secure the elementary rights of free association, free speech and of free press. In *limine* the Government of India desire to draw attention to the fact that the decision to adopt a programme of civil disobedience was finally accepted on the 4th November before the recent notifications relating either to the Seditious Meetings Act or the Criminal Law Amendment Act, to which Mr. Gandhi unmistakeably refers, were issued. It was in consequence of

serious acts of lawlessness committed by persons who professed to be followers of Mr. Gandhi and the non-co-operation movement that the Government were forced to take measures which are in strict accordance with the law for the protection of peaceful citizens in the pursuit of their lawful avocations.

2. Since the inauguration of the non-co-operation movement, the Government of India actuated by a desire to avoid anything in the nature of the repressions of political activity, even though it was of an extreme character, have restricted their action in relation thereto to such measures as were necessary for the maintenance of law and order and the preservation of public tranquillity. Up to November no steps save in Delhi last year were taken against volunteer associations. In November however the Government were confronted with a new and dangerous situation. In the course of the past year, there had been systematic attempts to tamper with the loyalty of the soldiers and the police and there had occurred numerous outbreaks of serious disorder directly attributable to the propaganda of the non-co-operation party amongst the ignorant and excitable masses. These outbreaks had resulted in grave loss of life; the growth of a dangerous spirit of lawlessness; and an increasing disregard for lawful authority. In November they culminated in the grave riots in Bombay, in which 53 persons lost their lives and approximately 400 were wounded. On the same date dangerous manifestations of lawlessness occurred in many other places and at this period it became clear that many of the volunteer associations had embarked on a systematic campaign of violence, intimidation and obstruction, to combat which proceedings under the Penal Code and the Code of Criminal Procedure had proved ineffective. In these circumstances the Government were compelled to resort to measures of a more comprehensive and drastic character. Nevertheless the operation of the Seditious Meetings Act was strictly limited to a few districts in which the risk of grave disturbances of the peace was specially great and the application of the Criminal Law Amendment Act of 1908 was confined to associations the majority of the members of which had habitually indulged in violence and intimidation. It is impossible here to set out in detail the evidence which justified the adoption of these measures in the different provinces. Abundant proof is however to be found in the published proceedings of the various legislative bodies, in the communiqués of different local Governments, and in the pronouncements of heads of provinces. While resolute in their determination to enforce respect for law and order and to protect loyal and peaceful subjects of the Crown, the Government have at the same time taken every precaution possible to mitigate, where desirable, the conditions of imprisonment and to avoid any action which might have the appearance of vindictive severity. Ample proof of this will be found in the orders issued by local Governments. Numerous offenders have been released; sentences have been reduced and special consideration has been shown in the case of persons convicted of offences under the Seditious Meetings Act or the Criminal Law Amendment Act. There is thus no shadow of justification for the charge that their policy has been one of indiscriminate and lawless repression.

3. A further charge which has been brought by Mr. Gandhi is that the recent measures of Government have involved a departure from "the civilised policy laid down by His Excellency at the the time of the apology of the Ali brothers, namely, that the Government of India should not interfere with the activities of non-co-operators so long as they remained non-violent in word and deed." The following citation from the communiqué of the Government of India issued on the 30th May conclusively disproves this statement. After explaining that in view of the solemn undertaking contained in the statement over their signature, it had been decided to refrain from instituting criminal proceedings against Messrs. Muhammad Ali and Shaukat Ali, the Government of India observed:

"It must not be inferred from the original determination of the Government to prosecute for speeches inciting to violence, that promoting disaffection of a less violent character is not an offence against the law. The Government of India desire to make it plain that they will enforce the law relating to the offence against the State as and when they may think fit against any persons who have committed breaches of it."

4. It remains for the Government of India to deal with the allegation that His Excellency summarily rejected the proposal for a conference although the terms put forward by the Conference at Bombay and accepted by the Working Committee of the Congress were "quite in keeping with His Excellency's own requirements as indicated in his speech at Calcutta." How far this is from being the case will be manifest from a comparison of His Excellency's speech with the terms proposed by the Conference. His Excellency in that speech insisted on the imperative necessity as a fundamental condition precedent to the discussion of any question of a conference, or the discontinuance of the unlawful activities of the non-co-operation party. No assurance on this point was, however, contained in the proposals advanced by the Conference. On the contrary whilst the Government were asked to make concessions which not only included the withdrawal of the notifications under the Criminal Law Amendment and Seditious Meetings Acts and the release of persons convicted thereunder, but also the release of persons convicted of offences designed to affect the loyalty of the army, and the submission to an arbitration committee of the cases of other persons convicted under the ordinary law of the land—there was no suggestion that any of the illegal activities of the non-co-operators other than hartals, picketting and civil disobedience should cease. Moreover it was evident from the statements made by Mr. Gandhi at the Conference that he intended to continue the enrolment of volunteers in prohibited associations and preparations for civil disobedience. Further Mr. Gandhi also made it apparent that the proposed Round Table Conference would be called merely to register his decrees. It is idle to suggest that terms of this character fulfilled in any way the essentials laid down by His Excellency or can reasonably be described as having been made in response to the sentiments expressed by him. Finally the Government of India desire to draw attention to the demands put forward in the concluding paragraph of Mr. Gandhi's present manifesto which exceed even the demands made by the Working Committee of the congress. Mr. Gandhi's demands now include—

- (1) the release of all prisoners "convicted or under-trial for non-violent activities ;"
- (2) a guarantee that Government will refrain absolutely from interference with all non-violent activities of the non-co-operation party even though they fall within the purview of the Indian Penal Code ; or in other words an undertaking that Government will indefinitely hold in abeyance in regard to the non-co-operators the ordinary and long-established law of the land.

In return for these concessions he indicates that he intends to continue the illegal and seditious propaganda and operations of the non-co-operation party, and merely offers to postpone civil disobedience of an aggressive character until the offenders now in jail have had an opportunity of reviewing the whole situation. In the same paragraph he re-affirms the unalterable character of the demands of his party.

The Government of India are confident that all right thinking citizens will recognise that this manifesto constitutes no response whatever to the speech of His Excellency at Calcutta and that the demands made are such as no Government could discuss, much less accept.

5. The alternatives that now confront the people of India are such as sophistry can no longer obscure or disguise. The issue is no longer between this or that programme of political advance, but between lawlessness with all its dangerous consequences on the one hand and on the other the maintenance of those principles which lie at the root of all civilised Government.

Mass civil disobedience is fraught with such danger to the State that it must be met with sternness and severity. The Government entertain no doubt that in any measures which they may have to take for its suppression they can count on the support and assistance of all law abiding and loyal citizens of His Majesty.

STATEMENT OF OBJECTS AND REASONS.

In view of the attempts that have been made and are being made (a) by means of threats, intimidation and otherwise to induce members of the Police-Force to refrain from doing their duty, and (b) to spread disaffection among them, the Government of India have for some time had under consideration the question of penalizing such attempts. Neither the Indian Penal Code nor the Indian Police Act, 1861, contains provisions to meet this evil. A prosecution could doubtless in certain cases be instituted under section 29 of the Indian Police Act, 1861, read with the abetment sections of the Indian Penal Code, but section 29 of the Police Act was designed to meet ordinary breaches of discipline, and would not cover many dangerous forms of tampering with the police. Moreover, the maximum punishment permissible under that section, viz., three months' rigorous imprisonment is manifestly inadequate for serious offences of this nature. The Government of India are accordingly of opinion that the authorities should be given additional means of dealing with this form of crime, and it is proposed, therefore, to enact the attached Bill, which has been framed on the lines of section 3 of the English Police Act of 1919 (9 & 10 Geo. V, Ch. 46).

IX of 1887.

5. In section 24 of the Provincial Small Cause Courts Act, 1887, for the words and figures "section 588, clause (29) of the Code of Civil Procedure", the words and figures "section 104 of the Code of Civil Procedure, 1908," shall be substituted; and after the words "District Court," the following words shall be added, namely :—
Amendment of section 24, Act IX of 1887.

V of 1908.

" On any ground on which an appeal from such order would lie under that section."

STATEMENT OF OBJECTS AND REASONS.

This Bill is intended to take the place of the Bill which was introduced in the Legislative Assembly on the 1st March 1921, and was withdrawn with the leave of the Assembly on the 25th January 1922. The object of that Bill was to provide more effective means of meeting the great evil arising from the institution of fraudulent and dishonest suits by empowering Courts to award compensatory costs in fraudulent suits. The Bill was circulated for the purpose of eliciting opinions, and along with the opinions received, was referred to a Committee consisting of Members of the Council of State and the Legislative Assembly appointed by the Governor General in Council. The Committee was of the opinion that the summary procedure proposed by the Bill was likely to prove far more of a deterrent than the fear of a prosecution for perjury in the remote future. They considered, however, that the scope of the Bill should be extended in certain respects.

The detailed recommendations of the Committee were as follows :—

" I.—Limitation of amount to be awarded.

" It was agreed that the amount to be awarded should not exceed the pecuniary limits of the jurisdiction of the Court or Rs. 1,000, whichever is less, with the following special provisions regarding Courts exercising Small Cause Court powers, namely, a maximum of Rs. 250 for a Munsiff and Rs. 500 for a subordinate Judge; a provision to be added that these maxima are to be subject to rules made by the High Court so as to enable High Courts to limit the amount awardable by certain classes of Courts, *e.g.*, the lower grade Courts of Munsiffs with limited jurisdictions as in the Punjab.

" II.—Appeals.

" In connection with this, it was incidentally decided that provision should be made for reasons to be recorded in writing whenever an order is made awarding compensatory costs. It was also agreed that there should be an appeal in every case, except that (a) there should be no appeal against an order refusing damages or against the absence of any order, and (b) there should be no appeal by way of cross appeal or otherwise asking for an increase of the amount awarded. It was agreed that in no case should there be a second appeal.

" III.—False defences.

" Though the Committee was not entirely unanimous on the point, it was agreed that provision should be made also for the award of damages to the plaintiff where a false defence was set up by the defendant.

" IV.—Execution proceedings.

" It was pointed out that the evil existed to a larger extent in execution proceedings than in original suits, and it was unanimously decided that the provisions of the Bill should apply to false claims put forward in support of execution proceedings as well as to false objections.

" V.—Vexatious suits.

" The opinion was generally held that the provisions of the Bill should apply to suits, etc., which are both false and vexatious. The matter was left to be examined by the draftsmen.

" VI.—Operation of the Bill.

" It was agreed that the Bill should only come into operation in such areas as might be notified by the Local Government, with the sanction of the Governor General in Council. It was suggested that the power to extend the operation might cover the whole or any specified portion of the Bill."

The present Bill has been prepared in order to carry out the recommendations of the Committee.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 31st January, 1922 :—

No. 6 OF 1922.

A

BILL

further to amend the Code of Criminal Procedure, 1898.

WHEREAS it is expedient to give a legal status to person practising as lawyers in Criminal Courts, known as Mukhtars, and further to amend the Code of Criminal Procedure, 1898, for that purpose; It is hereby enacted as follows :—

1. (1) This Act may be called the Code of Criminal Procedure (Amendment) Act, 1922.

Short title and extent.

(2) It shall extend to the whole of British India.

2. In clause (r) of sub-section (1) of section 4 of the Code of Criminal Procedure, 1898. after the words "an attorney of a High Court," the words "and a mukhtar" shall be inserted, and the words "mukhtar or" shall be omitted.

Amendment of section 4, Act V of 1898.

STATEMENT OF OBJECTS AND REASONS.

Persons practising in Criminal Courts known as mukhtars practise under a licence from the High Courts after duly passing an examination held under the auspices of the High Courts for that purpose and are recognised practitioners in Criminal Courts. For all practical purposes, they are treated as recognised members of the profession. Under the present law the mukhtars have received permission from the Courts to act for their clients. In fact, this permission is usually and generally granted, but in some rare cases have been withheld. Above all, the members of the profession have a sentimental grievance inasmuch as they have been placed in the same category as ordinary persons without any training or licence. The grievance has caused much discontent, and it is desirable that it should be removed. This will not affect the dignity or status of any class of lawyers, or in any way affect the administration of justice. As the mukhtars have to pass a fairly good test and have to renew their licence every year, which depends upon their professional good conduct, it is unnecessary to retain the disability under which they at present suffer.

Clause 2 removes the disabilities referred to above.

CALCUTTA, THE 14TH FEBRUARY 1922.

RESOLUTION—No. 2755P.

READ—

The report of the committee appointed by the Government of Bengal to advise on the question of a suitable site for the new headquarters of the Noakhali district in the event of the diluvion of the existing Government buildings.

The erosion of the town of Noakhali has been engaging the attention of Government for a considerable time. The policy followed has been to retain

the headquarters of the district at Noakhali as long as it is possible to do so, and at the same time, pending more definite developments, to provide the safeguard of a temporary provision which would enable the administration of the district to be carried on should existing public buildings disappear. Accordingly certain temporary buildings were constructed to replace those washed away, and land was acquired in 1920 at Maijdi in the vicinity of Noakhali with a view to combining the use of the buildings left at Noakhali with temporary ones to be constructed, when required, on this site. Owing to the continued erosion, a decision has now to be come to as to the future headquarters of the district should the abandonment of the existing town become unavoidable, and, in view of the divergent opinions expressed on the question of a suitable new site, the Governor in Council considered it desirable that a public enquiry should be made by a small committee composed of officials and non-officials before whom all sections of the community could represent their views. A committee consisting of the following members was therefore appointed :—

- (1) The Commissioner of the Chittagong Division, *President*,
- (2) The Collector of Noakhali,
- (3) The Superintending Engineer, Eastern Circle,
- (4) Babu Annada Charan Dutt, M.L.C.,
- (5) Khan Sahib Bazlul Haq,
- (6) Rai Raj Kumar Dutt Bahadur,
- (7) Babu Karuna Chandra Das,
- (8) Maulvi Majibal Haidar Chaudhuri,

to advise where the new headquarters of the district could be located to the best advantage, assuming its construction to be necessary.

The report of the committee which has been received has been carefully considered, and the Governor in Council has decided to accept the recommendation made therein that the new headquarters of the district should be located at the site already acquired at Maijdi. Steps are being taken for the preparation of a project estimate for raising the site and the construction of the buildings most urgently required.

ORDERED that this resolution together with the report of the committee be published in the *Calcutta Gazette* for general information.

By order of the Governor in Council,

H. L. STEPHENSON,

Chief Secretary
to the Government of Bengal.

Report of Committee appointed by the Government of Bengal to advise where the new headquarters of the Noakhali district could be located to the best advantage.

The committee sat from 11-30 A.M. to 4 P.M. at the Collectorate Buildings in Noakhali on the 17th December 1921. On this occasion there were present the following members of the committee:—

- (1) The Commissioner of the Chittagong Division, *President*.
- (2) The Collector of Noakhali, *Secretary, appointed by the Committee*.
- (3) The Superintending Engineer, Eastern Circle.
- (4) Babu Annada Charan Dutta, M.L.C.
- (5) Rai Raj Kumar Dutt Bahadur.
- (6) Babu Karuna Chandra Das.

The following members were unable to attend owing to the local board elections:—

- (7) Khan Sahib Bazlul Haq.
- (8) Maulvi Majibal Haidar Choudhuri.

The committee received numerous representations from various leading gentlemen on behalf of various associations and land-owners of the district.

After a lengthy discussion, the meeting was adjourned to the 18th December, in order to allow the two absent members of the committee an opportunity of representing their views. On this occasion the committee met at the Circuit House at Sonapur, two miles from the town of Noakhali. The sitting lasted from about 11-30 A.M. to 1-30 P.M. The members present were:—

- (1) The Commissioner of the Chittagong Division, *President*.
- (2) The Collector of Noakhali, *Secretary*.
- (3) The Superintending Engineer, Eastern Circle.
- (4) Khan Sahib Bazlul Haq.
- (5) Babu Karuna Chandra Das.
- (6) Maulvi Majibal Haidar Choudhuri.

Other leading gentlemen of the district were also present.

The final decision of the committee was as follows:—

I. The majority of the committee, viz., all the members except Khan Sahib Bazlul Haq, were of opinion that the site for the new headquarters which would be most convenient to the people of the district is the site already acquired at Muijdi, with expansion, if necessary, towards the north and west.

The grounds on which this opinion is based are as follows:—

- (1) This site has already been acquired, at considerable expense. The abandoning of this site in favour of any other site would involve loss of money and delay.
- (2) The probability of erosion at Muijdi is not great, especially in the present state of the river.
- (3) The level of the land acquired at Muijdi is comparatively higher than the land of the other sites, with the exception of the proposed sites at Feni.
- (4) The position is central, close to the railway line, and close to the main river. It is equally convenient of access from all parts of the district. It is the most convenient site on the mainland for the islands generally.
- (5) It is near the present site of district headquarters and the residential quarters erected for Government officers at Sonapur.
- (6) There is already good drinking water available close to the land acquired, which might be utilised.
- (7) There will be no material change in the cost of living at Muijdi and no great inconvenience will be caused to the inhabitants of the town of Noakhali by the removal of the headquarters to Muijdi.
- (8) The site is a healthy one, and not unpleasant.

II. The majority were also of opinion that in order to avoid the possibility of administration of the district being brought to a standstill, the construction of the most important buildings likely to be required should commence immediately. The burning of bricks and the raising of the site should actually commence not later than the middle of January 1922.

III. The committee in arriving at this opinion considered the representations of various associations and of agents of many of the leading land-owners in the district.

The committee also considered the comparative advantages of the following sites :—

- (1) Maijdi, (2) Bajra, (3) Begumganj (near to Choumahani) and (4) Feni.

From the above conclusions only one member of the committee, viz., Khan Sahib Bazlul Haq, dissented. This gentleman was of opinion that the headquarters of the district should be stationed at Feni, for the following reasons :—

- (1) that if a subdivisional headquarters were established near to Noakhali, the objection that Feni is not centrally situated would have little weight.
- (2) that Feni is a healthier locality than Maijdi ;
- (3) that there was no certainty that Maijdi is free from erosion ;
- (4) that there was a time when the majority of the people of the district were in favour of locating the headquarters at Feni ;
- (5) that as regards communications Feni is better situated than any other part of the district. The route to the islands *via* Chittagong is easier and safer than the route *via* Noakhali ;
- (6) Mireswari thana in the district of Chittagong and Choudhagram thana in the district of Tippera might be added to the district of Noakhali. Feni would then become a comparatively central place ;
- (7) there was a considerable amount of land at Feni suitable for public buildings and already in possession of the Government. Consequently the erection of the headquarters at Feni would be much cheaper than at any other of the proposed sites ;
- (8) the cost of living at Feni is not higher than at Noakhali ;
- (9) in view of the fact that Feni would be shortly in possession of an up-to-date College, the district headquarters should also be located at Feni ;
- (10) pure drinking water is already available at Feni in Bejoy Singh's tank, which is sufficient to supply drinking water for the whole of the headquarters station ;
- (11) the proposed site at Feni was exceedingly pleasant and picturesque.

In view of the above advantages, the Khan Sahib was of opinion that the one disadvantage of Feni, namely, that it was not geographically in the centre of the district might be disregarded.

The majority of the committee disagreed with the Khan Sahib's reasons as well as with his conclusions.

His first reason was not accepted, as it was considered that even with subdivisional headquarters at or near Noakhali, great inconvenience would be felt in going to Feni for the purposes of patni sales, revenue sales and important law suits.

As regards his second reason, it was pointed out that there was no reason to suppose Feni to be healthier than Maijdi.

As regards his third reason, it was considered that on this point the opinion of the Superintending Engineer should prevail.

As regards his fourth reason, it was pointed out that there was no sufficient reason for supposing that public opinion was ever generally in favour of Feni.

As regards his fifth reason, the majority were of opinion that the route to and from the islands *via* Chittagong was too expensive to be generally used.

As regards his sixth reason, the majority were not in favour of the proposed re-distribution.

As regards his seventh reason, the majority were of opinion that there were not sufficient lands in possession of the Government at Feni to make the construction of the district headquarters in that place appreciably cheaper than at other of the proposed sites.

As regards the ninth reason, the majority were of opinion that it would be just as well for the College if it were not stationed at district headquarters.

As regards the tenth and eleventh reasons it was held that good water also be available at Maijdi, and that the Maijdi site was not unpleasant.

RESOLUTION ON THE SCHEME FOR ELEMENTARY AGRICULTURAL EDUCATION IN BENGAL.

GOVERNMENT OF BENGAL.

AGRICULTURE AND INDUSTRIES DEPARTMENT.

Agriculture.

CALCUTTA, THE 17TH FEBRUARY 1922.

RESOLUTION—No. 798Agri.

Minister in charge: The Hon'ble Nawab Salyid Nawab Ali Chaudhuri, Khan Bahadur, C.I.E.

FOR some time past the question of agricultural education has been engaging the attention of the Government of Bengal in the Ministry of Agriculture and Public Works. The great increase in the cost of living and the consequent necessity for increasing the output of the soil, the growing demand for vocational education, and the need of new fields of employment for the middle classes have all combined to impress Government with the desirability of framing a comprehensive policy of agricultural education to which effect can be given as the finances of the province permit. The object of this resolution is to explain the views which Government have formed and to invite public opinion thereon.

2. Agricultural institutions fall into three grades—(1) higher, (2) secondary and (3) elementary according to the class of instruction which they impart. In addition to the institutions of these three grades it may eventually be necessary to open special schools at which such subjects as dairy and poultry farming and horticulture will be taught.

3. It has been decided that the highest type of agricultural education will be imparted at the proposed Institute at Dacca. Land has already been acquired for the purpose and the plans and estimates have been sanctioned. The Institute will be equipped with all the modern appliances necessary for the highest agricultural training. Only graduates in science or agriculture will be admitted to the courses, and these will be of the most specialized type, including agricultural botany, agricultural engineering, dairying and other subjects. It may, however, also be found necessary to provide a complete course of undergraduate studies up to the standard taught at other provincial colleges.

4. An attempt to meet the needs of less advanced students was made in 1920, when as an experimental measure two agricultural vernacular schools were started, one at Dacca and the other at Chinsura. The object of these institutions was to train the sons of cultivators in the elements of improved agriculture and allied subjects such as smithy and carpentry while at the same time allowing them to pursue their vernacular education in literature and mathematics. It was hoped that on the completion of their training these youths would return to their home and apply their knowledge in the cultivation of their holdings. Experience proved, however, that these two schools were in many respects not suitable for the purpose for which they were intended, the main objection being that they were far too costly. The position has therefore been reviewed by the Government of Bengal in the Ministry of Agriculture and Public Works and these schools have been raised to the secondary standard from the beginning of this session. The students will receive a good theoretical and practical training in agriculture, including rural economics and organisation in agricultural engineering, including carpentry, smithy, surveying, working and repair of agricultural implements, etc. and in horticulture, dairying, poultry-keeping, veterinary hygiene, book-keeping and remindari accounts. The primary object of these schools will be to train a class of men who will be fitted to undertake practical farming or to accept employment under Government or private remindars.

as agricultural demonstrators or as teachers in elementary agricultural schools. The majority of the students will be selected from the agricultural classes, and it is hoped that a large number of them will return to their holdings and devote themselves to intensive farming on modern lines.

5. It is apparent, however, that to satisfy the needs of the mass of the people, the cultivating classes will have to be approached through a much simpler and less expensive system of education. At the last meeting of the Bengal Board of the Agricultural Department the subject was discussed at length, and it was agreed that though the Department of Agriculture, by its researches, demonstrations and propaganda work has done a great deal to educate the cultivator, there is need for the establishment of a net work of elementary agricultural schools of an inexpensive type, where the sons of the cultivators will receive a systematic training in the elementary principles of agriculture. In response to this decision of the Board the Government of Bengal in the Ministry of Agriculture and Public Works put Dr. N. Gupta of the Department of Agriculture on special duty to work out proposals for the establishment of such schools, and the Director of Agriculture, in consultation with him, has submitted a scheme to Government which is described below.

6. These schools will be located within easy reach of the cultivator and will each serve a limited area. They will be of the most inexpensive type. The course will extend over two years and the training will be of a practical character, but in order to keep up the knowledge acquired by the students in the primary schools, some instruction in reading and writing will also be given. The reading will, however, be confined to a vernacular agricultural primer to be written by a departmental officer. The course will consist of agriculture, including cattle management and hygiene, elements of mensuration and surveying, and elementary carpentry and smithy, all with special reference to the every-day needs of the cultivator. Besides these, short conversational lessons will be given to the boys, with the help of lantern slides and charts, on the elements of personal hygiene and rural sanitation, co-operative credit, agricultural improvement, etc., with the object of broadening their intelligence without unduly taxing it. The subjects will be dealt with in an elementary manner and the course arranged in such a way as to be of real help to the student in his after-career as a cultivator.

Every school will have its own land where the students will be required to do all the agricultural operations themselves (in a joint plot in the first year, and in individual plots in the second). In addition they will be required to do the annual repairs of the school house and to keep the place clean. No habits of luxury will be encouraged and there will be no furniture except mats for the boys to sit on. The headmaster of the school will also be the agricultural demonstrator for the locality and each school will in reality be a demonstration centre where the local people can get visual evidence of the value of agricultural improvements. Each school may also serve as centre for lectures for the surrounding villages.

The entrance qualification of the pupils will be the lower primary standard and the minimum age 13 or 14 years for boys with a strong physique. It is expected, however, that these schools will be taken advantage of by much older boys of the cultivating classes. The authors of the scheme consider that a course of agricultural education even of the most elementary character, if it is to have a permanent effect, should extend over two years. But it is realised that the Bengali cultivator may often be unwilling to spare his son for so long a period, and to meet the difficulty it is proposed to make the first-year course as complete as possible in itself to enable such boys to profit from one year's attendance. It will be a course suited to cultivator's sons who wish to work their own small holdings on improved methods without going in for any great expenditure. It will embrace a comprehensive grounding in the elements of agriculture. The second-year training will be a continuation of the first-year on higher standard with the addition of a few practical courses on special subjects like *gur*-making, tobacco-curing, poultry-farming, vegetable-cultivating, butter-making, cigar-rolling, etc., according

to the facilities which the locality affords for such training. The curriculum will be adjusted to suit the requirement of more advanced cultivators who can afford to go in for intensive crops and the use of simple improved implements and better manuring.

The buildings of the school will consist of a school room, teacher's quarters, and workshop, a cattle shed and fodder godown and a house for menials. The equipment of the workshop will be complete but inexpensive, and the building will be constructed of local materials in the cheapest manner possible. The minimum capital expense of such a school consistent with efficiency has been estimated at about Rs. 3,000, excluding the cost of the land, and the annual recurring charges at about Rs. 1,800 per school. It is hoped that the capital expenditure on these schools will be considerably diminished by contributions from local bodies and private persons in the shape of money or of land and buildings. It is gratifying to note that the Government have already received such offers from private individuals and have reason to believe that more will be forthcoming.

7. The Government of Bengal in the Ministry of Agriculture and Public Works fully realise that the question of elementary agricultural education is not free from difficulties, and they are desirous of obtaining the views of the public on the subject. They, therefore, invite expressions of opinion on these proposals for the establishment of elementary agricultural schools and particularly as to (a) the desirability of opening the elementary agricultural schools as detailed above, (b) their prospects of success, (c) the suitability of the curriculum (appended), (d) the length of the course, (e) the prospects of actual cultivators' sons attending such schools, (f) the capacity of the boys to assimilate the teaching, and (g) the most suitable age and educational qualifications for admission.

RESOLUTION ON THE ANNUAL IRRIGATION REVENUE REPORT FOR THE YEAR 1920-21.

GOVERNMENT OF BENGAL.

IRRIGATION DEPARTMENT.

CALCUTTA, THE 14TH FEBRUARY 1922.

RESOLUTION—No. 2-I.

READ—

The Annual Irrigation Revenue Report for the year 1920-21.

The Major Irrigation Works in Bengal are, the Midnapore and the Hijli Tidal Canals and the Grand Trunk Canal project. The first two canals are in operation. In connection with the Grand Trunk Canal project, preliminary arrangements were made during the year. **The Minor Works** for navigation are the Calcutta and Eastern Canals, the Madaripur Bil Route, a portion of the Orissa Coast Canal, the Nadia Rivers and the Gaighatta and Buxi Khal. The only irrigation work of this class is the Eden Canal. Training works on the rivers Ganges, Bhagirathi, Dhaleswari and Buriganga and the Anti-malarial drainage works carried out by this department at the cost of Government are classed under this head.

2. The capital outlay on the major works to the end of March 1921 amounted to Rs. 1,29,06,869. A sum of Rs. 17,86,096 was spent during the year in connection with the Grand Trunk Canal project. This expenditure represents the cost of the acquisition of land and the payment made in England on account of the dredger *Ronaldshay* which has been specially ordered in connection with the Grand Trunk Canal project. Other works constructed for the capital outlay comprise two weirs across the Cossye river at Midnapore and at Panchkura and 98.75 miles of main and branch canal of which 69.75 miles provide for both irrigation and navigation and 29 miles for navigation only; there are in addition 254.5 miles of distributaries. The Terapahia Pass Khal, Palaboni Khal and the khal leading to the Gewankhali lock entrance, of which the aggregate length is 20.75 miles are also maintained for navigation and included as part of the Hijli Tidal Canal. During the year under review no addition was made to the length of the canals and distributaries.

In accordance with the Government of India, Public Works Department, circular No. 3P.W., dated the 24th September 1921, the classification of irrigation, navigation, embankment and drainage works has undergone complete changes. The accounts for 1920-21 were, however, prepared in the old classification, and this has been adopted in this resolution and the report on which the resolution is based.

3. The total receipts from the major works amounted to Rs. 2,99,760 and the working expenses to Rs. 2,69,291, the result being a net revenue of Rs. 30,469 against Rs. 98,762 in the preceding year. This decrease in revenue is chiefly due to the increased working expenses of the Midnapore Canal and to the decreased receipts owing to the floods of July and August 1920 and to the depression in trade during the latter part of the year. The general revenues of these canals depend considerably upon receipts from navigation and these have suffered of late years from railway competition.

4. The area irrigated during the year was 91,066 acres as compared with 89,692 acres in 1919-20 and an average of 85,742 acres for the triennium ending March 1920.

5. **The Grand Trunk Canal** has been classed as a major work and sanctioned by the Secretary of State at an estimated cost of Rs. 3,09,00,000. The total capital outlay on the project during and up to the end of the year 1920-21 amounted to Rs. 17,86,096. All works in connection with this project except those for which Government have committed themselves, have for the present been held in abeyance pending further examination on the productive aspect of the project.

6. The capital outlay on canals classed as minor works and navigation was Rs. 3,28,797 during the year and Rs. 1,51,99,501 to the end of the year. The receipts for the year amounted to Rs. 7,69,310 and the working expenses to Rs. 10,53,255.

The financial results of the year and the capital expenditure to date are exhibited in the following statement :—

	Capital expenditure direct and indirect.		Receipts of the year less refunds.	Expenditure of the year less refunds.	Net revenue of the year.	Net revenue of the previous year.
	Of the year.	To end of the year.

7. The **Calcutta and Eastern Canals** form a series of navigable channels mostly natural but partly artificial by which communication is maintained between Calcutta and Eastern Bengal. The receipts from navigation tolls amounted to Rs. 3,65,011 as compared with Rs. 3,80,101 in the preceding year. The decrease is due to less transport of jute during the year. The capital outlay incurred during the year was expended on the excavation of a channel between the Kankrabunia khal and Channel Creek to the south of the Doagra channel in the Sunderbans Steamer Route and on the purchase of coaling plant for the dredgers *Foyers* and *Alexandra*. The channel referred to will serve as an alternative to the Doagra channel which is rapidly dying.

8. The capital expenditure during the year on the **Madaripur Bil Route** which connects the Madhumati and Kumar rivers in the district of Faridpur, was incurred chiefly on the work of widening and deepening the main channel of the route which was in progress during the year. The receipts from navigation tolls amounted to Rs. 3,14,963 as compared with Rs. 3,40,003 in the preceding year.

9. The **Orissa Coast Canal** in conjunction with the Hijli Tidal Canal affords communication between Bengal and Orissa, and before the opening of the Bengal-Nagpur Railway was the only inland route by which supplies of food could be conveyed into Orissa in time of famine. This canal which is intended for navigation only now lies partly in this Presidency and partly in the Province of Bihar and Orissa. The receipts and working expenses (direct and indirect) for the portion within Bengal were, respectively, Rs. 13,236 and Rs. 7,691 as against Rs. 16,512 and Rs. 10,728 in the year 1919-20.

10. The work in the **Nadia Rivers** consists in the training of the river channels by bandals with the two-fold object of maintaining by the scouring of shoals a sufficient depth of water for boat traffic and at the same time improving the sanitation of the country. The Hooghly river also depends on these rivers for its head waters. The report of the committee appointed in 1917 to advise Government on the steps to be taken to carry out systematic observations of the changes in the Nadia rivers and also, if possible, to improve their conditions as navigable channels and as feeders for the Lower Hooghly is still under the consideration of Government. The only outcome so far has been the constitution of a permanent board whose

duty it will be to examine all important projects which are likely to restrict the free flow of flood water. The receipts and working expenses (direct) of the system during the year under review were Rs. 13,377 and Rs. 63,837, respectively.

11. **The Balghatta and Buxi Khal** is a short channel connecting the rivers Damodar and Rupnarain. Nothing had to be spent during the year on the upkeep of the khal. The collection of tolls on boat traffic has been leased for three years from 15th May 1919 at a rental of Rs. 4,700 per annum.

12. **The Eden Canal** was originally constructed for sanitary reasons, but it is now used to some extent for irrigation. It was worked during the year at a loss of Rs. 13,358 against a similar loss of Rs. 11,495 in the preceding year. The financial position and the usefulness of the canal will be improved in the construction of the Damodar canal. The estimate for this project, amounting to Rs. 68 lakhs for direct charges, has been sanctioned by the Secretary of State. As funds required for the work will have to be met from loan funds, this Government is now considering whether at the present rate of interest the project can still be classified as a Productive Public Work.

13. The work in connection with the **Improvement of the Bidyadhari river** by creating a spill reservoir for the flood tide was in progress during the year. The operations already undertaken have proved satisfactory, and it is expected that the continuation and extension of the operations will effect further improvement by which the life of the river will probably be prolonged for a number of years.

14. Some of the works in connection with projects for mitigating the effects of the Damodar floods were completed and others were in progress.

15. (i) **Training Works** were, as usual, carried out in the Dhaleswari and Buriganga rivers to facilitate navigation and to improve the water-supply of the town of Dacca. The shoal at Post-gola on the Buriganga river was operated on by the dredger *Alpha* of the India General Navigation and Railway Company, Limited. The result of training operation in the Dhaleswari river was highly satisfactory, but that in the Buriganga was unsatisfactory owing to considerable amount of discharge escaping through.

(ii) Training works were carried out also during the year through the agency of the India General Navigation and Railway Company, Limited, on the river Ganges between Rajmahal and Goalundo.

(iii) To improve navigation as well as the sanitary conditions and water-supply of the town of Rampur Boalia, training works were carried out on the channel of the river Ganges.

(iv) At the mouth of the Bhagirathi river at its off-take from the river Ganges, no dredging operations were done during the year as no suitable dredger was available, but attempts were made to improve the entrance by means of bandalling only.

16. **General.**—As stated in the last year's resolution the most important problems with which the Irrigation Department in Bengal have to deal are not connected with irrigation properly so-called, but are mainly concerned with the improvement of navigation and sanitary conditions and the control of flood water. Concerning the problem of improving means of navigation Government have for several years been impressed by the urgent necessity of developing adequately these waterways systems, and they have now the sanction of the Secretary of State to the construction of the Grand Trunk Canal project. A special officer has, however, been deputed to work out the full details of the project to show its productive aspect to the Legislative Council before actual construction is taken up. The navigation projects prepared by the Executive Engineer on special duty in connection with the conservancy of the rivers Dhaleswari and Buriganga were still under the consideration of Government during the year. To improve the sanitary as well as the drainage conditions, several anti-malarial schemes were under construction, and other schemes were under investigation during the year. Flood embankments and sluices in them were also efficiently maintained during the year.

17. The Irrigation Department during the year under review was successively in charge of the late Mr. F. A. A. Cowley, Mr. C. E. Walsh and Rai Amar Nath Das Bahadur. The thanks of Government are due to these officers for the efficient conduct of the affairs of the Government during the year. By the death of Mr. F. A. A. Cowley, the Government and the Department lost an experienced and able officer whose services could not be too highly appreciated. The good work of other officers has also been noted by Government. Special thanks are also due to Mr. C. Addams-Williams, C.I.E., Superintending Engineer, on special duty, for the zeal and ability with which he conducted his enquiries into the drainage condition in Bengal.

ORDER—Ordered that a copy of the resolution be published in the *Calcutta Gazette* and a copy thereof and of its accompaniments be submitted to the Government of India in the Public Works Department and circulated to other Governments and to all Departments and officers of this Government as usual.

By order of the Governor in Council,

G. T. HUNTINGFORD,
Secretary to the Government of Bengal (offg.).

**RESOLUTION ON THE SURVEY AND SETTLEMENT REPORTS
FOR THE YEAR ENDING THE 30TH SEPTEMBER 1921.**

GOVERNMENT OF BENGAL.

REVENUE DEPARTMENT.

Land Revenue.

CALCUTTA, THE 17TH FEBRUARY 1922.

RESOLUTION—No. 1934L.R.

READ—

The Survey and Settlement Reports for the year ending the 30th September 1921.

During the year under review traverse survey was continued in the districts of Bogra, Murshidabad, Birbhum and Khulna, and with the exception of 3 square miles in the Khulna district, the programme consisting of 3,424 square miles was completed. Towards the close of the year, the traverse survey programme was reduced from a four-party to a two-party basis. At present traverse survey is going on in the districts of Pabna, Bogra and Khulna and has been discontinued in the districts of Murshidabad and Birbhum.

The Survey Department also carried on some miscellaneous surveys during the year. The work in connection with the demarcation of rivers in the Nadia district, which was continued from the previous season, was completed. The survey of the limits of the jurisdiction of the Calcutta High Court was also undertaken during the year.

2. The report of the Director of Land Records, Bengal, gives an interesting account of the progress of work done under his control. Except for the diara resumptions, the major settlement operations in the districts of Mymensingh, Midnapore, Tippera, Noakhali and Rajshahi were in their closing stages. By the end of the year, records-of-rights had been completed in 55 per cent. of the area in this province to which the Bengal Tenancy Act applies.

3. Major settlement operations were in full swing in the districts of Jessore, Nadia, Bankura and Pabna-Bogra. Minor operations of considerable importance were also in progress in the districts of Faridpur, Bakarganj, Dacca, Tippera and Darjeeling. During the year an area of 3,270 square miles was cadastrally surveyed; records for 2,477 square miles were attested and those for 2,084 square miles were finally published. The outturn of work compares favourably with that of the preceding year. Although in some areas where operations were going on progress was retarded on account of illness among the staff and strikes in the press, the work, excepting *bujharat* in Bankura and Pabna-Bogra districts, was kept well up to the programme.

4. Towards the close of the year, the settlement programme was reduced from a four-party to a three-party basis, and will be further reduced to a two-party basis next year. According to the original programme, settlement operations were to commence during the current field season in the districts of Birbhum, Khulna and Murshidabad. Owing to financial stringency, however, expenditure on survey and settlement operations has been reduced as much as possible, and in consequence only a limited programme has been undertaken in the district of Birbhum; the settlement in Murshidabad district has been stopped altogether for the present. It was with great regret that the Governor in Council was compelled to agree to this reduction in programme and to the consequent delay in the completion of the record-of-rights in all districts of the province. He trusts that it will now be possible

to avoid any further reduction and to carry on the settlement operations under a settled, if not an expanding, programme.

5. As in the district of Nadia, a large number of *utbandi* tenancies were found in the Bongaon subdivision of the Jessore district. The greater number of these tenancies were however *utbandi* in name rather than in incidents, and where the tenants have been in continuous cultivation for twelve years, the holdings have been recorded on separate *khatians* and treated as full raiyati holdings. Attestation in Jessore was not so difficult as in Nadia, and a fair number of real *utbandi* tenancies were converted into ordinary raiyati holdings with the consent of the landlords who recognised the advantage of securing a fixed income. In the district of Nadia, on the other hand, the landlords were opposed to such conversion and the *utbandi* lands held by tenants have been generally recorded either as nominal or real *utbandi*. For a large proportion of the lands falling under the latter category, however, the tenants have been recorded as having occupancy rights on the ground of twelve years' continuous cultivation or payment of rent. Another peculiar feature of the *utbandi* tenancies in Nadia was the multiplication of different rates for different crops and fields, and the Settlement Department has specified no less than forty kinds of common rate in that district. Complicated questions relating to *utbandi* tenancies have lately led to discussions in the decision of which, it is hoped, the Committee appointed to consider the amendment of the Bengal Tenancy Act will give material assistance.

6. The Governor in Council has read with pleasure the account in the report of the Director of Land Records of the increasing popularity of the settlement records and maps. They are now freely used in almost every branch of the administration. Nearly 850,000 copies of *Khatians* and 17,000 copies of maps were sold to the public during the year.

7. The work of resumption of accretions from rivers added considerably to the normal programme of the recent settlements in Eastern Bengal. Up to the end of the year under review, proceedings have been drawn up for 1,672 new estates; the proceedings for 1,452 estates with a land revenue of over Rs. 2 lakhs have been confirmed by the Board of Revenue.

8. Mr. C. A. O'Donel was in charge of the Bengal Survey Department up to the 2nd June 1921, when he went on leave, and Mr. O. E. C. Judd held charge of the Department for the rest of the year. Mr. F. A. Sachse, I.C.S., was in charge of the Department of Land Records, Bengal, throughout the year. The Governor in Council has much pleasure in acknowledging the care and ability which Mr. Sachse has devoted to the work of his Department and his ready co-operation in adjusting settlement operations to the limits imposed by financial considerations. His Excellency in Council also desires to acknowledge the services rendered by the settlement officers, Messrs. F. W. Robertson, J. M. Pringle, H. C. V. Philpot and Khan Bahadur Muhammad Abdul Momen. The good work of these officers and of those mentioned in the last two paragraphs of the survey and settlement reports will be noted.

ORDER.—Ordered that this Resolution be published in the *Calcutta Gazette* and that a copy of it, together with the copies of the two reports, be submitted to the Government of India.

By order of the Governor in Council,

W. S. HOPKINS,

Secretary to the Government of Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL.

Third and Final Report on the Winter Rice Crop of Bengal, 1921-22.

NOTE.—On an average of the five years ending 1919-20, the area under Winter Rice in Bengal has represented some 19·7 per cent. of the total area under rice in British India.

Character of the season.—In the second forecast issued in December last, the weather was reviewed up to end of October as having been good for the broadcast, and satisfactory for the transplanted, rice crops. Since then, dry weather has been favourable for harvesting.

Acreeage.—According to District Officers' estimates, the total area under winter rice amounts to 15,850,200 acres as against 15,343,800 acres, in the corresponding forecast of last year. The increase in area since the issue of the second forecast is mainly due to revision of estimates in the district of Mymensingh on the basis of settlement figures.

Outturn.—From the district returns appended it will be seen that four districts report a bumper crop, viz., Tippera 133 per cent., Rangpur 125 per cent., Darjeeling and Mymensingh each 117 per cent. Midnapore reports a crop just above the normal (i.e., 108 per cent.). The districts of Howrah, Dinajpur, Jalpaiguri, Faridpur, Bakarganj, Chittagong and Noakhali report a normal crop; seven districts a crop between 83 and 95 per cent. The remaining eight districts report the outturn as follows :—

Malda 79 per cent.; Murshidabad, Burdwan and the Chittagong Hill Tracts each 75 per cent.; Nadia, Birbhum, Bankura and Hooghly report a crop as low as between 58 to 67 per cent.

As compared with the second forecast, a better crop has been harvested in the districts of the 24-Parganas, Midnapore, Jalpaiguri, Bogra, Mymensingh and Tippera but in the districts of Murshidabad, Khulna, Hooghly and Dacca the outturns have fallen somewhat below the previous estimates. In the remaining districts, there has been no change since the second forecast.

According to District Officers' estimates, the provincial outturn works out to 96 per cent. of the normal as against 90 per cent. last year. But in consideration of the favourable weather conditions prevailing during the harvesting period, I am inclined to think that a normal or a 100 per cent. crop has been reaped this year.

Accepting 100 per cent. as the provincial outturn, the gross yield of cleaned grain from the winter rice crop, on the basis of a normal yield of 12½ maunds per acre, amounts to 7,278,200 tons this year as against 6,341,100 tons, in the corresponding forecast of last year.

Director of Agriculture, Bengal.
